# Intelligent Video Bar
## The foundation of RTI Intelligent Meetings

Wide angle 4K ePTZ camera with 5x digital zoom and 120° field of view to ensure everyone is seen in striking 4K clarity.

Artificial Intelligence (AI) for Auto Framing, Presenter Tracking, and Speaker Tracking engage remote teams as if they are in the room.

Hear every word with perfect clarity. The stereo full range speakers with bass enhancement are complemented by the beam-forming AI microphone arrays with AEC[1], ANS[2], and AGC[3] for an exceptional audio experience every time.

Rear panel inputs and outputs enable easy connection to monitors, devices, and control systems.

Large Conference Room

With the wide angle 4K camera on the Intelligent Video Bar and support for up to 3 Expansion Microphones, *RTI Intelligent Meetings* easily scales to large conference rooms. The built-in AI with auto framing, plus presenter and speaker tracking creates a natural flow. Sharing content is easy with the wireless Media Xchange Transmitters or through AirPlay or Miracast. Show room availability and add room control with the KX4 Touchpanel plus Processor at the conference room door, while the KA11 Touchpanel handles at-the-table control.

Huddle Space

Huddle Spaces demand fast response for impromptu meetings. The Intelligent Video Bar paired with the Media Xchange Transmitter enables immediate collaboration and content sharing from any PC, while mobile content can be shared via AirPlay and Miracast. All of this without the need for a control system.

Small Conference Room

Take full control of your small conference room by adding an RTI XP-3 Processor behind the TV or in the cabinet, with tabletop control provided by the KA8 Touchpanel. Adding the Expansion Micrphone with AI to the table will make sure all voices are heard.
