Enjoy hands-free home monitoring with select Alexa-enabled devices. Hear custom notifications and use two-way talk with Echo Dot, launch video with Echo Show and more.

Frequently Asked Questions

What privacy features are included with Stick Up Cam?

Stick Up Cam lets you create privacy zones that black out areas of your home that you don't want to monitor. You can also disable motion recording, alerts and audio right from the app to give you some peace and quiet. Plus, you can also schedule your motion alerts to turn on at the same time you typically leave the house and turn off at the time you typically return.

What's Ring Protect?

Ring Protect is a comprehensive optional subscription service that lets you review, share and save every video and photo captured by your Stick Up Cam. Without Ring Protect, you'll still receive real-time motion-activated notifications, real-time video with Live View, Two-way talk and Lifetime Theft Protection for **free**. If you choose to subscribe, we have two plans:

Ring Protect Basic activates video recording, People-Only Mode, photo capture and sharing for an individual Ring Doorbell or Camera. It saves all your videos to your Ring account for up to 60 days (in the U.S.) and photos for up to 7 days, so you can review and share at any time. Ring Protect Basic is \$3 a month/\$30 annually for one device.

Ring Protect Plus covers ALL Ring Doorbells, Cameras and Alarm at one location and includes everything Ring Protect Basic offers plus an extended warranty and the ability to opt-in to 24/7 professional monitoring with cellular backup for Ring Alarm. Ring Protect Plus is \$10 a month/\$100 annually per home.
