## FITTING ROOM

**Know this:** You don't need a special appointment with a bra-fitter—just these tips to get the perfect, customized lift.

If straps dig, go up a band size

Cups that cover most of your breast cut down on jiggle

fit snugly beneath your shoulder blades

Perfect from the front..

Support check: Your nipple should be halfway between your elbow and shoulder.

The underwire should hit right before your underarm

...and the back.

The band does most of the work: In the right size, you're lifted before even putting the straps up.

The band should

## The winning bras:
