

CUT THE POWER CORD

PICOTE BATTERY POWERED MINI CLEANER

The Mini Cleaner is now available as a cordless, battery powered model! It makes quick work of cleaning, descaling, root removal, cutting, reinstatements, & coating in DN32-75 (1¼-3") pipes.

Now even easier to transport and operate regardless of power outlet locations or availability (no need for a transformer in the UK). It has a range of 16m (50') and features a highly flexible 8mm (1/3") shaft which allows working in smaller diameter pipes, even with multiple 90° bends and P-traps as small as DN50 (2").

In the UK, and other countries without syphonic toilets, it can also be pushed through the toilet and into a stack pipe for cleaning.
