O U R S T O R Y

Dapper dogs beg for it. Cosmopolitan canines howl for it. Even ho-hum hounds find themselves sitting and staying for a chance to get their paws on Nandog Pet Gear. Since 2010, we have created products that represent the best mix of fashion, function, and value for modern mutts and the people who love them.

After recognizing the limited options available to price-conscious dog owners for products that were not only affordable, but stylish and durable as well, Nando Vergara set out to create a specialty line of supplies and accessories that catered to the trendy dog-enthusiasts on a budget.

With the help of partner Mitch Klapow, the two put their creative minds together and developed a brand geared to dog owners with a passion for fashion. With a combined 20 years of experience in the pet industry, these guys know what they're doing. Fueled by their passion, the two brought their vision to life, launching Nandog Pet Gear in 2010. What began as a dream has flourished into a successful brand that is now featured in boutique specialty shops and large retailers across the United States.

Nandog Pet Gear carries a variety of products including retractable leashes, toys, grooming essentials, travel accessories, and home

décor, all boasting a high-end look without the designer price tag. We deliver an upscale twist that's bursting with personality—guaranteed to take your store from blah to fabulous!

Our distinctive packaging, trendy patterns, and bold colors allow retailers to stock their shops with attractive, eye-catching store displays. Vendors and customers love the Nandog Pet Gear brand because all of our products offer unique luxury styles, creative designs, and quality materials. In order to keep up with current industry trends and the needs of pet owners, we are constantly updating and expanding our product line.

From the start, our mission has always been to make pet care fun, fashionable, and affordable. We are committed to consistently delivering a high level of service and attention to our customers.
