

Nova Rain Bracelet

Materials:

1. SilverSilk Galaxy in Silver #SLKG06SL-2
2. 5mm Round Leather Cord in Garnet #LRGT0525
3. Half Bracelet Finding #LL203AS
4. Licorice Leather Slider Bead #LL152AS
5. E6000 Glue

Instructions:

These measurements make a 6-3/4" bracelet. Please adjust if you would like the bracelet to be bigger or smaller.

1. Measure and cut 12" of Leather Cord.
2. Measure and cut 13" of SilverSilk Galaxy.
3. Slide the leather cord into the SilverSilk Galaxy until it is fully encased, leaving about a 1/4" of SilverSilk Galaxy hanging off the end, and twist it so that the leather cannot slide back out.
4. Pull the SilverSilk Galaxy with your hand lengthwise over the leather so that it tightens around the leather.
5. Twist the other end of the SilverSilk Galaxy and trim off the excess.
6. Fold the leather in half, and feed the ends into the Slider Bead.
7. Glue the ends into the Half Bracelet. Let dry for 24 hours.
