Related editions of Microsoft Office :

A refreshed task pane interface makes positioning, resizing, or rotating graphics easy so you can create exactly the layout you want. And new themes and styles help you pull it all together to produce stunning, professional documents. It's unmistakably Office – but thoughtfully designed to take advantage of the unique features of the Windows. Microsoft Office is an office suite of desktop applications, servers and services for the Microsoft Windows and Mac OS X operating systems, introduced by Microsoft.

Microsoft Office 2016 for Windows is conceptually different from earlier released office versions. Almost all of the key elements in it have been developed from scratch, and applications oriented to a single style of work, regardless of the hardware platform.
