DIY0000 - DIY Bracelet Cuff w/ Microfacet Garnet
Designed by Kayla from DakotaStones

Tool Suggestions:
- Chain Nose Pliers
- Side Cutters

Components List

☐ (1) **WR00044** - 24-Gauge Copper German Bead Wire

☐ (1) **Z016187** - Copper Plated Thin Square Flat Cuff Bracelet by Nunn Design

☐ (1) **CHA4DC-F** - Chakra 4mm Diamond Cut Faceted Coin Bead Strand

Directions:

1. Cut a 4' piece of wire.

2. Starting a third of the way up the cuff, wrap your wire making 4-5 coils. Pinch the coils together to keep the coils close and tight.

3. Slide on a gemstone bead, lay and situate the gemstone on the flat cuff and wrap the wire around the cuff two times, while keeping the gemstone in place.

4. Repeat step 3 to the rest of your gemstones and coiling 2 times between each gemstone. Make sure to pinch your coils together to keep coils tight.

5. At the last coil, make 4-5 coils before cutting off excess.
