- A006599** - Superlon Beading Thread Bobbin
- A006767** - Beading Needle
- Z013680** - 10mm Black Fabric Tassel with Silver Cap

Instructions

1

Cut 6 feet piece of beading thread and add on needle. Slide tail end through one hole on link and tie two knots, leaving a 5-6 inch tail. (fig. 1)

Pick up 4 seed beads, sew through second hole and up through the last two seed beads to start brick stitching this row. (fig. 2)

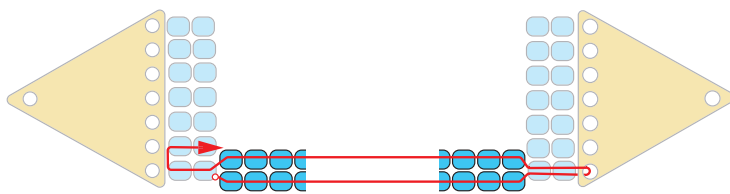

Pick up 2 seed beads, sew through next hole and back through the 2 beads. Repeat down the link 4 more times. (fig. 3)

Loop through a few beads, tie off and cut off excess thread. (Think link will be used for opposite bracelet end)

2

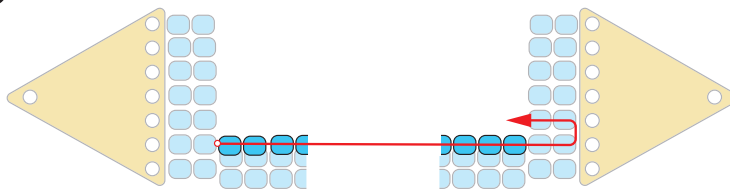

Repeat Steps 1, omitting the last part to tie off your ends. You will continue to bead and link the two beaded ends together in the next steps.

3

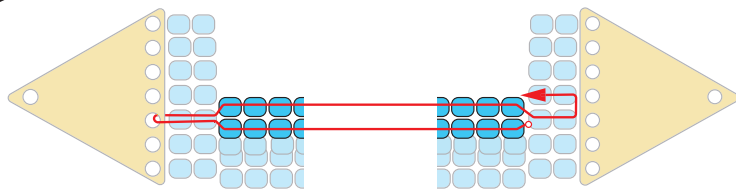

Where you left off on step 2, pick up 110 seed beads. Sew through the opposite set of seed beads on the other beaded link you did in step 1. Loop through the hole, sew back through the same set of seed beads, pick up another 110 seed beads and sew back through the set of seed beads you started from. Loop over to the next set of seed beads.

4

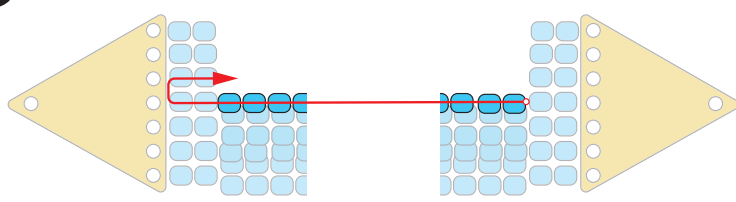

Pick up 110 seed beads, sew through the second set of beads on the opposite beaded end and loop over to the third set of seed beads.

5

Repeat step 3 by adding two strands of 110 beads through the third set of seed beads.

6

Repeat step 4 by adding on strand of 110 beads through the third set of seed beads.

7

Repeat steps 3-5 to finish off the next three set of seed beads. Tie off and sew through a few beads before cutting off excess.

8

Add jumpers and link them for an extender chain with a tassel at the end. And link jump rings with clasp at the other end.
