Directions:

1. Using an awl, bead reamer or a solid point like your round nose, poke a hole in between the outer two rings of your straw, at one corner. This will be where you will add your jump ring.
2. Poke another hole in the opposite corner of the hole you made in Step 1.
3. Open large jump ring and slide through hole you made in Step 1 or 2 and through the loop of ear wire. Close jump ring.
4. Open another large jump ring and slide through other hole on straw component. Close jump ring.
5. Open small jump ring, slide through large jump ring from Step 4 and through loop of cone tassel. Close jump ring.
6. Repeat all steps for other earring.
