- TC01208 - (2) Clear Comfort Earring Back By Tierracast

Tool Suggestions:

Chain Nose Pliers
Bead Reamer A002370
File Set A012906

Directions:

1. Using an awl, bead reamer or a solid point like your round nose, poke a hole in between the outer two rings of your straw. This will be where you will add your jump ring.
2. Poke another hole in the opposite end of the hole you made in Step 1.
3. Open jump ring and slide through hole you made in Step 1 or 2 and through the loop of the fan tassel. Close jump ring.
4. Open another jump ring and slide through the other other hole in the straw. Close jump ring.
5. Open small 3mm jump ring and slide through jump ring from Step 4 and loop of ear wire. Close jump ring.
6. Repeat all steps for other earrings.
