

DIY0129 - DIY Go Put Your Records On Vinyl Earrings

Components List

- (1) Y005214 - 6mm Vinyl/Vulcanite Heishi Beads – Black
- (1) Y005247 - 6mm Vinyl/Vulcanite Heishi Beads – Teal
- (1) Y005210 - 6mm Vinyl/Vulcanite Heishi Beads – White
- (2) Z014902 - 13mm Black Enamel Rhodium Plated Round Rhinestone Center Charm
- (1) Z003692 - 16mm Silver Plated Brass Lever Back Earrings
- (1) A001530 - 8mm Silver Plated 18 Gauge Round Jump Ring
- (1) A001528 - 5mm Silver Plated 20 Gauge Round Jump Rings

Tool Needed:
- Chain Nose Pliers

Directions:

1. Open one of the large jump rings and slide 4 black vinyl beads to it and close the jump ring.
2. Open another large jump ring and slide on 4 black vinyl beads and attach this jump ring to the first one and close the jump ring. Position the vinyl beads on this jump ring so there are 2 on each side of the first jump ring.
3. Open another large jump ring and slide on 4 black vinyl beads and attach this jump ring to the one in step 2 and close the jump ring. Position the vinyl beads on this jump ring so there are 2 on each side of the previous jump ring.
4. Continue this pattern with 3 large jump rings with the turquoise vinyl beads.
5. Then continue the pattern with 3 large jump rings with the white vinyl beads.
**remember you can add more or less of the jump rings with vinyl beads to make it longer or shorter.
6. Open the top white jump ring and attach the lever back earring to it making sure that there are 2 vinyl beads on each side.
7. Using one of the 5mm jump rings, attach the black metal charm to the bottom jump ring. Make sure to attach it so there are 2 vinyl beads on each side of that jump ring. Also make sure the charm and earring front (the front has the thicker side) are facing the same way.
8. Repeat all steps to make the other earring.
