Tool Needed:

- Chain Nose Pliers
- 2-4" Piece of Fine SoftFlex or a similar beading wire or thread.

Instructions for Earrings:

1. Choose your 2 large hole gemstone beads that you want to use for the earrings.
2. Take your 2-4" piece of SoftFlex (or other similar stringing material) and thread it through the top loop of the tassel. \*\*See image below.

3. Slide one of the gemstones onto the SoftFlex, and down onto the tassel. You should have a little bit of the tassel loop sticking out the top of the gemstone.
4. Remove the SoftFlex
5. Slide a jump ring into the top of the tassel loop and add earwire.
6. Repeat steps 2-5 for the other earring.

Instructions for the Bracelet:

1. Unhook the clasp on the opposite side of the one with the extender on it. \*\*See image below.

2. Slide on one of the stopper beads (Z009424).
3. Slide on the large hole gemstones to your liking. You should be able to fit 15 of the large hole beads on the bracelet.
4. Slide on the remaining stopper bead (Z009424).
5. This bracelet measures 8-9".
