Directions:

1. You will receive 2 feet of beading chain. Cut to your desired length. For example, if you want a necklace that is 18" long, cut the chain at 17.5". The crimp ends and clasp will account for about another 0.5 inch.
2. Add a very small amount of glue to one end of the beading chain. Slide the chain through the Crimp End with Loop.
3. Using your flat nose pliers, flatten the crimp tube. You may need to apply a fair amount of pressure.
4. Start sliding on your beads. You will start with a blue Delica and use a gold Delica to as a space for each dot and dash. This is how STRONG will look:

5. Once you have all your beads on, repeat steps 2 and 3.
6. Using one of the jump rings, add the clasp to one of the crimp loops.
7. Add another jump ring to the other crimp loop.
