Instructions:

1. Open one of the jump rings that is attached to the Adjustable Rollo Chain Necklace Double Slide Clasp and attach that to one end of the first bar section of Bar Chain to it. Note - You may need to remove the round link that is on the end of the Bar Chain.
2. Starting with the first round link on the Bar Chain, use one of the 4mm jump rings to attach one of the Round Disc Drops. Close the jump ring.
3. Using another 4mm jump ring, attach one of the tassels to the next round link on the bar chain. Close the jump ring. We started with a red tassel, but you can go in any sequence you choose.
4. Repeat steps 2 and 3, alternating attaching a Round Disc Drop and then another tassel. Continue until you've reached the end of the Bar Chain. Make sure to end with a Round Disc Drop. You may need to remove the last bar link.
5. Using the other jump ring that is attached to the Adjustable Rollo Chain Necklace Double Slide Clasp, attach the end of the Bar Chain. Close the jump ring.
