- (1) A021771 - 1mm Bright Silver Fold Over Crimp with Loop Chain Ends
- (1) A002413 - 4mm Silver Plated 22 Gauge Round Jump Ring

Directions:

1. 1) Cut the .7mm Silver Plated Beading Chain (CH00724) into 2 pieces:
 - One piece at 15 inches
 - One piece at 9 inches.
 2. Start adding the enamel tube beads to one of the pieces of beading chain. This is where you can get creative and go with your choice of random pattern or maybe you have a more structured pattern in mind. Make it yours!
- Note** - You can use a bead stopper on one end of the beading chain to keep your design together OR you can attach one of the fold over crimp ends (A021771) on one end and then start adding your tube beads.
3. Repeat step 2 for the other piece of beading wire.
 4. Cut the 2.2mm Tiny Oval Chain (CH01095) into 4 pieces:
 - Two pieces at 4 inches
 - Two pieces at 2 inches
 5. Using the jump rings, attach the crimp end loops to the ends of the 2.2 Tiny Oval Chain (CH01095) as follows:
 - Attach the 15 inch piece of beaded chain to the two 2 inch pieces of CH01095
 - Attach the 9 inch piece of beaded chain to the two 4 inch pieces of CH01095
 6. Using a jump ring, slide one end of each of the pieces in step 5 and add the lobster clasp. Close jump ring.

7. Using another jump ring, slide the other two ends and the necklace extender (Z003804). Close jump ring.

**Note – you can add more chain if you prefer a longer necklace.
