

DIY0168 DIY Triple Layer Gold Necklace with Dumortierite Slice

Components List

- (1) **PEN-DMT27-34SLC-GP** - Dumortierite 27x34mm Slice Gold Plated
- (1) **A015901** - Gold 3 Strand Tube Clasp
- (1) **Z001102** - 18 Inch 4mm Flat Herringbone Necklace with Clasp - Gold
- (1) **TC02324** - 12mm Antique Gold Nouveau Pewter Pinch Bail by Terracast
- (2) **CH01216** - Paperclip and Round Cable Chain Combo - Gold
- (2) **CH01212** - 5x2mm Shiny Gold Plated Rectangle Link Chain
- (1) **Z002434** - 4mm Gold Plated Brass 22 Gauge Round Jump Ring

Tools Needed:

- Chain Nose Pliers
- Cutter
- Nylon Jaw Pliers (optional)

Directions:

1. Attach the pinch bail to the gemstone pendant by gently pinching it together. Using a nylon jaw pliers are helpful so as to not mar the metal, but you can also use any pliers. Just be very gentle!
2. Cut the chain to the desired length. In this example I used 22" of the paperclip chain (CH01216) and 24" of the rectangle link chain (CH01212).
3. Slide the gemstone pendant on to the rectangle link chain (CH01212).
4. Using the jump rings, attach the chain to the tube clasp. In this project I put the paper clip chain on one end, the rectangle link chain in the middle and the. The herringbone necklace is on the other end. For the herringbone necklace I used a jump ring to attach one side and then attached the other side with the lobster clasp to the tube clasp.
