

## DIY0186 DIY Carmel Stud and Ocean Jasper Multi Strand Necklace

### Components List

- (1) **Z011755** - 2 Inch Antique Silver Plated 21 Gauge Eyepins
- (4) **CH01219** - 2mm Stainless Steel Small Box Chain
- (1) **Y006538** - 12mm Two Hole Stud Carmel with Luster Finish Czech Glass Beads
- (1) **Z004093** - 5mm Antique Silver Plated 20 Gauge Oval Jump Rings - 25 Pack
- (1) **Y012717** - 50mm Antique Silver Plated Bali Style Round 2 Hole Connector Clasp
- (1) **OJR4RD-A** - Ocean Jasper Natural 4mm Round A Grade - 15-16 Inch

#### Tools Needed:

- Chain Nose Pliers
- Round Nose Pliers
- Cutter

#### Directions:

**Step 1.** Slide one side of the two-hole stud bead onto a head pin, trim and make a simple loop. Do the same to the other side of the bead. You are making a “connector” type piece.

**Step 2.** Repeat step 1 seven (7) times making a total of 8 connectors.

**Step 3.** Cut 16 pieces of chain, each piece is 1 inch long.

**Step 4.** Using an oval jump ring, attach one of the 1-inch pieces of chain to one of the loops on the clasp. Close the jump ring. Do the same on the other loop of the same clasp side.

**Step 5.** Take one of the Czech stud connectors you made in step 1 and slightly open the loops on one side like a jump ring. Attach these 2 ends to the 2 pieces of chain that you added to the clasp in step 4. Make sure that the chain is not twisted when you do this.

**Step 6.** Open the eye pin loops on the other side of the two-hole stud and attach a 1-inch piece of chain to each loop. Close the eye pin loop.

**Step 7.** Continue to attach two-hole stud connectors to 1-inch pieces of chain until there are 4 studs chained together with a clasp on one end and a two-hole stud on the other.

**Step 8.** Repeat steps 4-7 starting with the other side of the clasp.

**Step 9.** Put one 4mm ocean jasper bead on an eye pin, trim the eye pin and make a simple loop. Do this 42 times to create links.

**Step 10.** Open the loop on one of the ocean jasper beads and attach it to the loop of another. Make two strings of beads. One string of 16 beads and another string of 26 beads.

**Step 11.** Lay out the two lengths of two-hole studs and chain that you made with the empty eye pin loops facing each other. Open the unused loop that is further away from you on each length.

**Step 12.** Cut an 8-inch piece of chain. Thread one end of the chain and one end of the 16 piece ocean jasper chain onto one loop then close it. Thread the other end of the chain and ocean jasper chain onto the other open eye pin and close it. See above.

**Step 13.** Cut a 12-inch piece of chain. Open the remaining two eye pin loops and attach this chain and the 26 piece ocean jasper chain as in the previous step.
