- Chain Nose Pliers

## DIY0190 DIY Beaded Holiday Wreath Earrings

### Components List

- (1) **Z020135** - 10mm Simple Sash Bow Post Earrings - Silver
- (2) **Z011336** - 30mm Silver-Plated Stainless Steel Beadable Ring Pendant
- (1) **SB03540** - DB656 11/0 Dyed Opaque Jade Green Delica Seed Beads Tube
- (1) **SB03545** - DB654 11/0 Dyed Opaque Cranberry Delica Seed Beads Tube
- (1) **Z011500** - 4mm Silver Plated 20 Gauge Round Jump Ring - 25 Pack
- (1) **A006767** - #10 Long English Beading Needles - 4 Pack
- (1) **A006587** - Crystal Fireline Thread 50 Yard Spool (6LB TEST)

### Directions:

1. Using a 3 feet piece of beading thread, add a stopper bead to the end of your beading thread, leaving 4-5 inch tail. (To add a stopper bead, pick up a bead and slide towards to end of your thread end, leaving 4-5 inch tail. Sew through the bead, looping two times through the seed bead.)

2. Sew through an outer hole of your beadable pendant. Note: the first stitch should be front to back so that the stopper bead will be on the front with the rest of the seed beads.
3. Pick up 7 beads (do variation of reds and green, using more greens than reds).
4. Sew down the hole across the channel. (The beads won't be sitting in the channel.)
5. Sew up through the next hole and repeat steps 3 and 4.
6. You will repeat this process, zigzagging through the pendant until you have gone all the way around.
7. While on the backside of your pendant, sew up the next hole and through the first seed bead. Pick up 4 seed beads, sew across the channel, down the last Delica bead and through the hole.
8. Repeat step 7 as you sew back through the beadable pendant again.
9. Once you've finished, tie off your thread ends and cut off excess.
10. Open your earring loop and slide your beadable wreath on.
11. Repeat all steps for other earring.
