

DIY0210 DIY Shape Shifter Agate Necklace - Gold

**Tools Needed:**

- Two Chain Nose Pliers
- Heavy-Duty Cutter

**Components List**

- (1) **Z021387** - 35x30mm Shiny Horseshoe Shaped Connector - Gold Plated
- (1) **Z021448** - 16mm Shiny Diamond Shaped Connector - Gold Plated Brass
- (2) **CH01174** - 10.9mm Gold Finish Steel Paperclip Cable Chain
- (1) **Z020221** - 35-50mm Druzy Agate (Black) Gold Plated Pendant - Large
- (1) **A011519** - 5mm Gold Plated 20 Gauge Round Jump Ring - 25 Pack
- (1) **Z006530** - 15mm Gold Plated Lobster Claws

**Directions:**

1. Start by removing the bail that comes on the pendant. This design does not use it.
2. Using a jump ring, attach the pendant to one end of the Diamond shaped connector. Close jump ring.
3. Using another jump ring, attach the other end of the Diamond shaped connector to the middle hole on the Horseshoe connector. Close jump ring.
4. Either cut your chain in half to use all 24" of it or cut each side to your desired length. Make sure the sides are even length.
5. Using the jump rings, attach one of the ends of each of the pieces of chain to the top holes of the horseshoe connector and close those jump rings.
6. Using another jump ring, attach the clasp to one of the ends of the chain. The lobster clasp will attach to the links of the chain.
