- Y002043 (1) Simple Loop with Ball French Earring Wires - Gold Filled
- A011517 (1) 4mm Gold Plated 20 Gauge Round Jump Ring - 25 Pack

Festive hoop earrings that are so easy to make!

Opening and closing jump rings are the only skills needed.

Directions

1. Add a jump ring to the loop on the charm and set aside.
2. Slide open the one end of the hoop frame and slide the beads onto the hoop in the BEAD ORDER listed. Be sure to add the Magatamas so they "flare" out.
3. Slide the end of the hoop back into the hole at the top of the hoop frame and gently pinch it closed using chain nose pliers, flat nose pliers, or nylon pliers. Be careful not to mar the metal. You can also add a tiny drop of super glue before you pinch the hole shut for added security.
4. Open the loop on the ear wire and attach it to the top of the hoop frame.
5. Repeat all steps for other earring. Once completed, these earrings will measure approximately 2.5" long.
