

RALLY HINGED KNEE

(WRAP)

ezyWRAP® designed the Rally Hinged Knee Orthosis to be a fully adjustable hinged knee orthosis that is both exceedingly comfortable and remarkably high quality. We use a breathable non-neoprene material that keeps the patient cool and comfortable with anti-migration elements to ensure effective support.

The Rally has removable dual-axis hinges for ease of maintenance and patient cleaning. Our hinges are customizable with range-of-motion stops allowing for positioning in increments of 10 degrees by an individual with expertise or directly off-the-shelf. All while being designed with anterior closure for a tailored compressive fit.

Approved **PDAC** L1832 & L1833

INDICATIONS FOR USE:

- Post-operative Rehabilitation
- Meniscus Injuries
- Knee Ligament Injuries
- Knee Sprains and Strains
