Setting the APP

Step 1:

Scan the QR Code or search "Smart Life" or "Tuya Smart" on App store or Google Play to download and install the APP for iOS / Android.

The mobile phone system version needs to be Android 5.0 and iOS 9.0 or above.

Step 2:

Run "Smart Life "or "Tuva Smart "app on your phone, then tap "sign up" to create an account with Email address (if you already had one, please log in), and verify your account with verification code which has sent to your email.

Step 3:

Log in your account and follow the App instructions to create a "Family" and later follow below instructions to add devices to vour "Family".

Bluetooth Configuration

Step 1:

Before connecting, please make sure your smart phone is connecting with your home Wi-Fi(2.4GHz) successfully and enable the Bluetooth feature.

Step 2:

To Connect in Bluetooth mode, the strip lights needs to be set to blinks rapidly. (You can learn the detailed instruction on How to set light as rapidly flashing section).

Step 3: Open APP and click "+" to add device, then tap "Auto Scan"

Step 4:

Follow the in-APP instructions to connect the strip lights to your Wi-Fi network, Please note the device only works at 2.4GHz

Step 5:

Once Connected, the APP will prompt the connection. Then Click "Completed".

Step 6:

Now you can control the lights through the APP

APP Connection Guide
