

TIPS TO TAKE A MORE HYGIENIC BREAK

Even though it's business as *unusual*, you can still enjoy your favorite FLAVIA drinks. **Just follow these simple steps:**

**WORK TOGETHER TO
STAY 6 FEET APART**

Follow the markers on the floor or keep about two arm's length between you and your coworkers.

**LIMIT WHAT
YOU TOUCH**

Hold your Freshpack at the corner

Try using a **pen, badge, or some other tool** to push the brewer buttons.

**USE THE SINK
WHILE YOU WAIT
FOR YOUR DRINK**

Takes about a minute for your drink to brew, and only 20 seconds to wash your hands (per the CDC's recommendations).

Don't have a sink...handy?
Hand sanitizer with at least 60% alcohol will do.

Even before COVID-19, **FLAVIA was already designed to be one of the most hygienic beverage systems for the workplace.** So during this uncertain time, you can still take comfort in enjoying your favorite drinks.
