### Step 1: Preparing the bottle

Carefully remove the oil bottle from the box

Unscrew lid from oil bottle

**Tip:** Pay special attention to not spill the oil

### Step 2: Setting up your diffuser

- First, hold the atomizer and straw in one hand, and the bottle in the other. Place the atomizer and straw in the bottle
- Next, tightly screw bottle onto bottom of the atomizer
- Align the atomizer air nozzle with the main diffuser body and firmly press down
- The atomizer should sit flush on top of the diffuser
- Keep the diffuser upright at all times to avoid spilling oil

### Step 3: Pick the perfect spot

1. Locate a spot with available wall outlet
2. Plug diffuser into outlet. Notice direction of mist

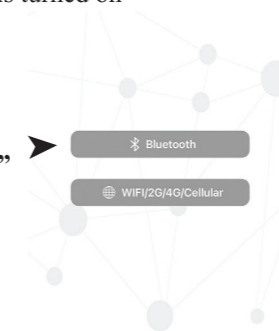

**Note:** Fragrance follows the airflow in your room.

If the mist travels toward the area you want to scent, this is a perfect place to start. If not, try another spot. Be patient, you may need to move it a few times to get the right coverage.

### Step 4: Programming your Terra Diffuser

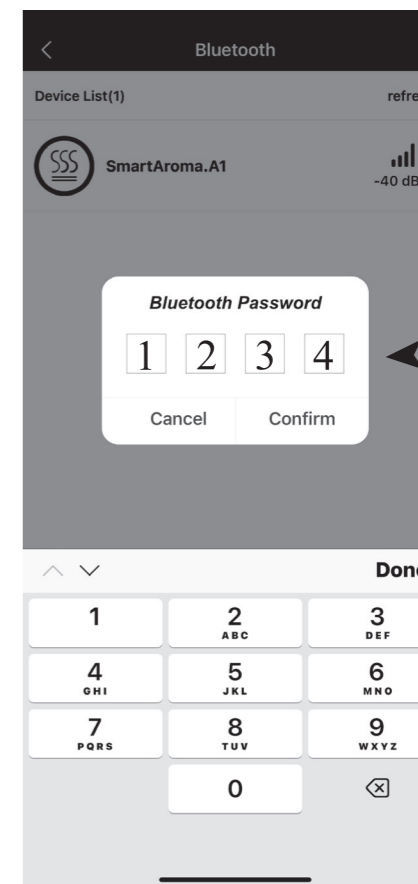

- Download the “Aroma-Link” app from the apple or android app store
- Make sure your bluetooth is turned on

Open the “Aroma-Link” app and select “Bluetooth”

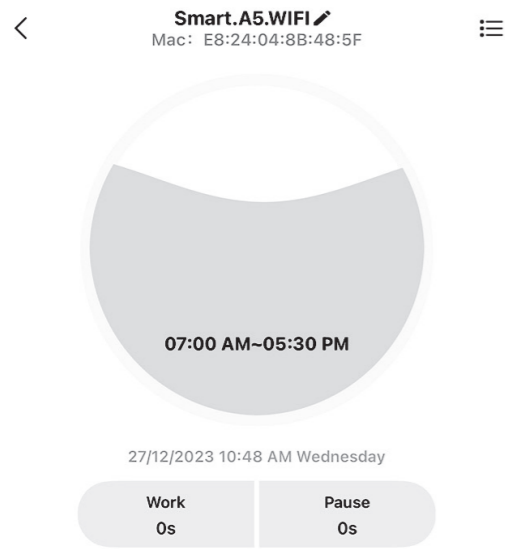

Press the diffuser name to enter programming

Enter default password “1 2 3 4”

Turn over for next steps →

## Press “Set” icon to create your scent schedule

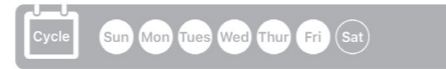

Press here to program your schedule

## Step 5: Programming your schedule

- Select the days you would like to program

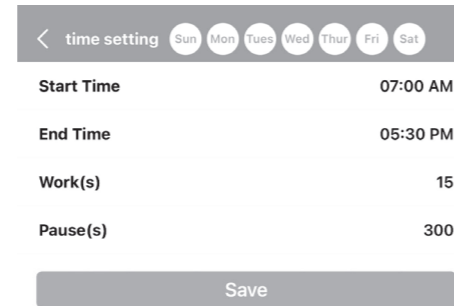

Tip: White icons are selected

- Press  to edit a schedule

- Set the start time for when you would like to begin diffusing fragrance each day
- Set the end time to stop diffusing fragrance
- Adjust the work setting for the number of seconds the diffuser will mist the fragrance
- Adjust the pause setting for the number of seconds the diffuser will wait to perform the next mist cycle

Tip: Always press save

**Example:** The above settings will diffuse 7 days a week. The diffuser will begin at 7:00 AM each day and run till 5:30 PM. During this time, it will operate in a constant cycle, diffusing for 15 seconds and pausing for 300 seconds.

## Pro Tips:

- If you want a stronger scent effect, increase the work setting
- If you want a lesser scent effect, decrease the work setting
- Only activate the schedules you are currently using
- If you are using more than one schedule, pay close attention to insure your schedules DO NOT overlap

## Please Note:

- Keep the diffuser upright at all times to avoid spilling oil
- In the case of spilled oil, clean immediately with soap and water
- Handle oil carefully. Spilled oil and oil residue can damage surface areas, including furniture and flooring.
