CLIENT TESTIMONIAL:

"We had a great experience working on the design and installation of our new kitchen. We saw the style we wanted in TileStyle's Ballymount showroom, booked a consultation and didn't look back. The Porcelanosa range we went for has units with more depth and height than other kitchens we had seen. Our kitchen is small but the team really listened to us and worked hard to give us a design that made the most of our space and budget. They were attentive to every detail and we had great communication throughout all stages of the project. The TileStyle installation team were very professional and put so much effort into getting everything just right for us. It was an excellent experience working with them all. We could not be happier with our new kitchen".

TESTIMONIAL:

“We decided on a complete home renovation project which very quickly became really stressful! We found it so difficult to visualise the different spaces and how they could all look. We were finding the open plan kitchen and living area the most challenging. A friend recommended TileStyle and as soon as we stepped into their showroom, the room settings there immediately brought our project to life. The kitchen team were fantastic, They talked us through the different finishes, appliances and layout options. Their knowledge of kitchen design is extensive and immediately put us at ease. They really understood what we needed for our busy family and came up with some great suggestions that made the most of the space. We’re absolutely delighted with the end result, the kitchen really works for us.”
