GREEN LIFE
WAREHOUSE

*Packaging
Guide*

Our Mission

WE ARE THE GREEN LIFE WAREHOUSE, A COMMUNITY OF PEOPLE LIVING THE GREEN LIFE! WE ARE YOUR ONE STOP GREEN SHOP FOR PLANT-BASED TREATS, ORGANIC COFFEE, HOMEWARES, ECO-FRIENDLY FOOD PACKAGING, CLEANING PRODUCTS, BODY AND BEAUTY... SHALL WE KEEP GOING? IN OTHER WORDS, WE HAVE EVERYTHING YOU NEED! SHOP ONLINE OR COME AND VISIT US IN STORE AT OUR NORTH LAKES WAREHOUSE AND ENJOY A BEAUTIFUL ORGANIC COFFEE FROM OUR ESPRESSO BAR WHILE YOU SHOP OUR ECO-FRIENDLY RANGE OF GOODIES.

Make our products yours!

At Green Life Warehouse, our wide range of sustainable, eco-friendly products help make a big difference to our planet – one customer at a time. So why not use our custom design and printing services to put your own stamp on these products?

From straws, coasters, flag picks, reusable cups and cutlery we can customise all our products to make your brand stand out. Our talented graphic design team can create packaging that's as unique as you are.

Let's get innovative...Some of Australia's best-known brands use our design and printing services. How are you going to stand out?

The process is simple...

Just send us your logo and a description of what you'd like, and we'll design your artwork. If you already have a graphic designer, we can design a template that they can use for your artwork. Whichever way you want to go, we'll make sure your brand is seen and heard!

Be seen, be heard.... Custom print from Green Life Warehouse

If you already have a graphic designer, we can design a template that they can use for your artwork. Whichever way you want to go, we'll make sure your brand is seen and heard!

Packaging Symbols

Know your packaging symbols!

You may have noticed more symbols appearing on product packaging. It's important to know what they mean, so you can choose the best products to buy and dispose of the packaging appropriately. Here is a simple explanation of some common symbols.

Disposal

COMPOSTABLE

You can compost this packaging in either a home or industrial compost. It will biodegrade within 180 days in an industrial compost and within 365 days in a home compost.

RECYCLABLE

You can recycle this packaging in your home recycling bin. Clean off any food, grease, oil or other mess before placing it in the bin.

Product Materials

RESPONSIBLY SOURCED PAPER & WOOD - FSC® CERTIFIED

These wood or paper-based products are made from materials sourced from FSC® Certified companies that use sustainable practices to help protect our forests.

SUGARCANE FIBRE / BAGASSE

Sugarcane fibre or bagasse is a by-product of sugar refining. You can recycle a product with this packaging in your home recycling bin if it doesn't have food residue on it.

Product Features

CUSTOMISABLE

This symbol indicates that our design team can customise the product to add your custom branding or create a unique solution just for you.

HOT OR COLD USE

Packaging with this symbol is ideal for hot or cold food. At Green Life Warehouse, this packaging is strong, dependable and grease-proof.

MICROWAVE & OVEN SAFE

You can use this packaging safely in a microwave or oven.

FREEZER SAFE

You can use this packaging safely in the freezer. However, you should test the packaging first to ensure the type of food you're freezing doesn't affect the structural integrity of the packaging once it's thawed.

P - Perfect For Your Branding
A - Affordable
P - Practical Alternative
E - Eco-Friendly
R - Recyclable

- Customise Today!

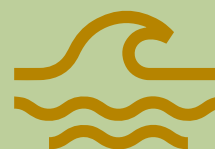

Did You Know?

Australians use 10 million plastic straws and 7 million plastic utensils every day.

Around 84% of the 2.5 million tonnes of plastic we produce each year goes to landfill.

More than 75% of rubbish on Australian beaches is made of plastic.

So why does Australia continue to make and sell so much plastic?

Global change needs to start at home, so we've decided to stop adding to the problem and switch to eco-friendly paper straws!

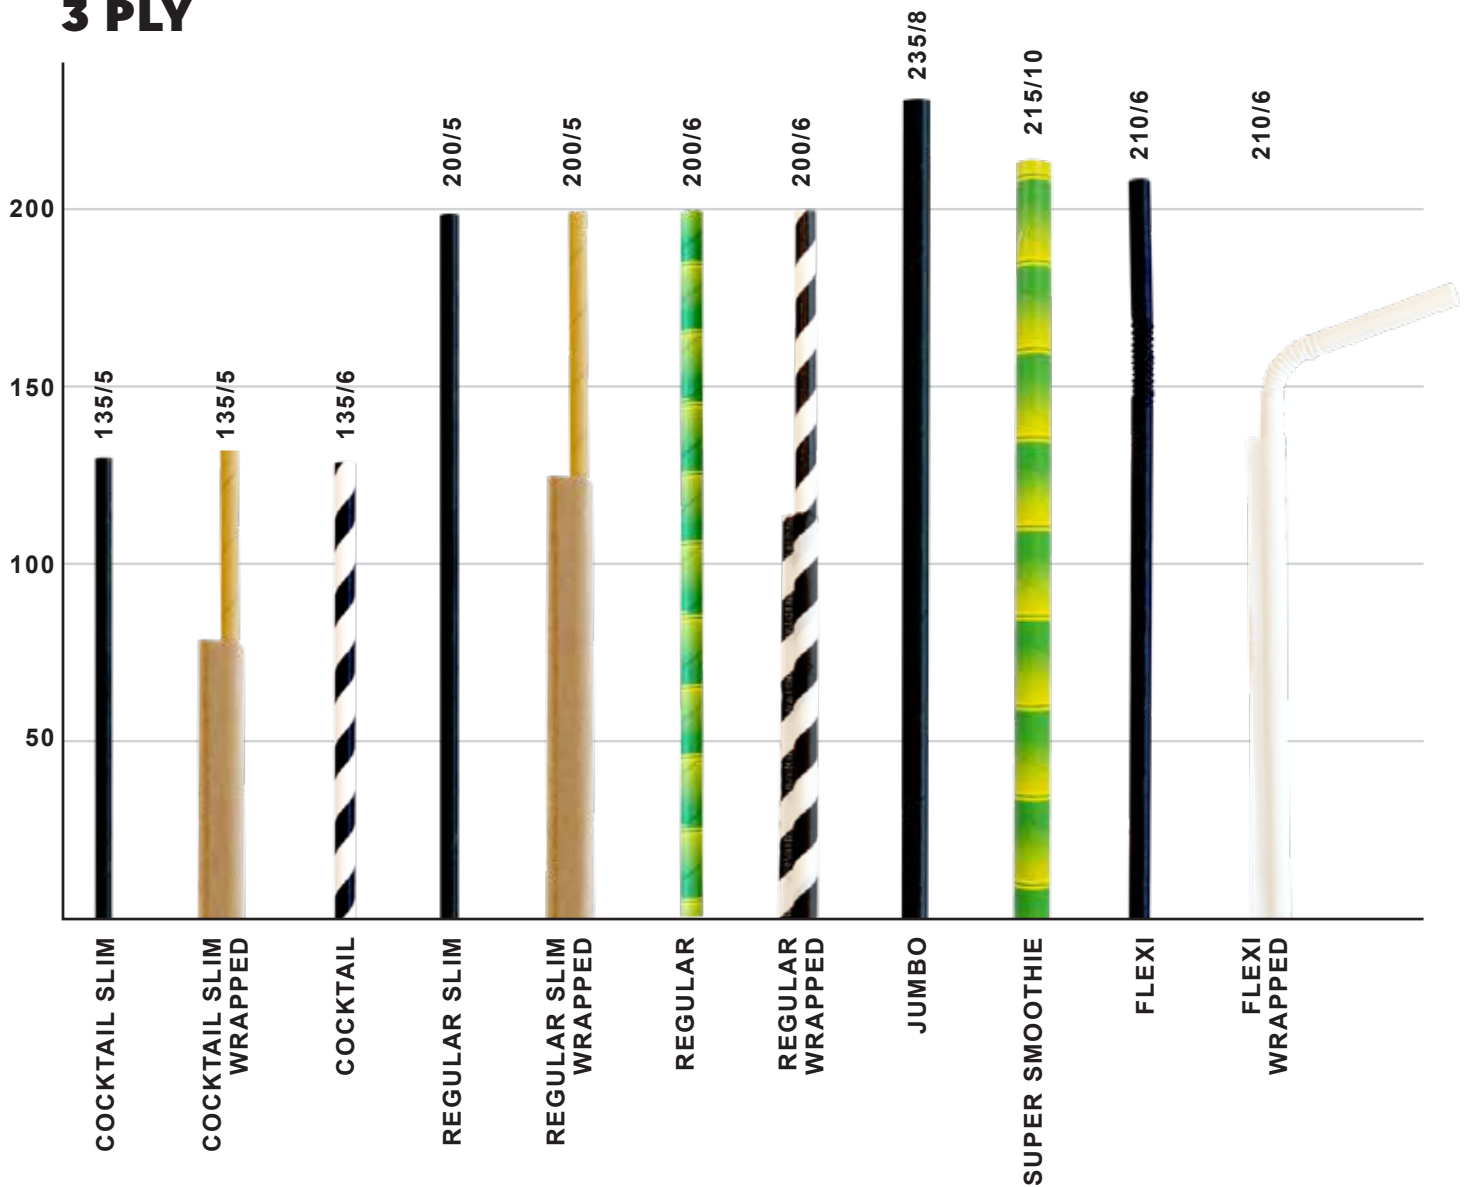

- Sourced from natural materials
- FSC® Certified
- Strong, durable and high-quality
- Available in 3 & 4 ply

Sustainable products get better every day, and we add them to our product range when we find them.

At Green Life Warehouse, we're becoming more responsible in the products we source and sell. And we encourage our customers and distributors to do the same – because it's the right thing to do.

Paper Straws

FSC® CERTIFIED

The material in our straws comes from well-managed, FSC®-certified forests and other controlled sources.

As national and state governments ban plastic straws, the search is on for a suitable replacement. Paper straws are the safest for our environment. While the quality of these straws has been hit and miss for a few years, all that is changing. Paper straws are getting better and better – and we've grabbed the best ones for our product range!

Our straws are made from a premium, 3-ply or 4-ply, food-grade paper with no waxes, and only 0.6% food-grade glue.

ECO-STRAW

Oxo-Biodegradable (Straws)

FDA CERTIFIED

A plastic straw with the additive “Reverte[®]” which alters the molecular structure of the plastic. Approximate lifespan of 18 months after its useful life.

If this straw finds its way into an open environment, this is where its degradable properties work well. After an initial 48 hours of sunlight, and exposure to oxygen, the straw will begin to degrade, eventually become brittle, slowly breaking down to where it can then be attacked in a micro-biological form, eventually degrading to CO₂ and Biomass.

Our OXO-BIO Eco-Straws meet standards for exposing and testing plastics that degrade by a combination of Oxidation and Biodegradation.

These straws take longer to break down compared to PLA or Paper and therefore cannot be claimed as a commercially compostable straw, however once fully broken down, meets the same eco-toxicity standards as Tier 3 - Ecotoxicity in the standard EN13432. The plastic, now biomass and CO₂ poses no threat to the earth, once fully broken down.

MEETS STANDARDS

- ASTM D6954-04(2013) – American Standard Guide for Exposing and Testing; Plastics that Degrade in the Environment by a combination of Oxidation and Biodegradation;
- This covers - Tier 1 – Degradability, Tier 2 – Biodegradability, Tier 3 – Eco-toxicity EN13432 – Ecotoxicity (Only);
- USA and EU FDA approvals For Plastics coming into contact with Food.

Wooden Cutlery

Made With Plantation Birch

As the name suggests, our One Tree cutlery items are made from material from well-managed, FSC®-certified forests. These natural timbers and bamboo will return to the earth and won't pose a risk to our marine life or stay in landfill forever.

We have a great collection of plain wooden knives, forks, spoons, sporks and chopsticks. However, we're also excited about our new range of waxed wooden cutlery – forks, spoons and even gelato spoons!

We know not everyone is used to eating from wooden utensils yet, so a light wax coating removes the timber taste for a better eating experience. And it's all completely safe.

Even our packaging is safe – all paper wrap with no plastic lining. So with these alternatives available now, there's no reason to delay trying wooden cutlery today.

ECO FRIENDLY TABLEWARE

ECO OPTION | ECO OPTION | ECO OPTION

Palm Leaf Tableware

Sustainable, beautiful, energy efficient and food safe. Palm leaf tableware is an ideal, eco-friendly alternative to plastic plates and bowls. These products are compostable and biodegradable – so they return to the earth when you're done.

Palm leaf products are produced from the fallen leaves of the Areca palm tree through a safe, sustainable process of:

1. High pressure cleaning
2. Pressing and heating
3. Checking and UV sterilisation.

There's no waste in this process, as offcuts are used to make smaller bowls and scraps become compost for the Areca trees.

Our 100% organic palm leaf plates, bowls and platters are all safe for hot and cold liquids. They don't go soggy, and the leaf's natural insulation makes them strong and easy to hold. And there's no taste transfer from the palm leaf to the food.

As single-use plastic becomes banned across the nation, now is the time to try our Palm Leaf range.

Food Packaging

Our compostable and recyclable food boxes are a great way to present delicious food to your customers while still being eco-friendly. Made from kraft cardboard, these boxes will ensure your food is easy to carry and relatively spill proof.

Sugar Cane

Made from 100% natural sugar cane, our plates and compartment trays are an environmentally friendly alternative to plastic while boasting a sturdy design for hot/cold applications such as salads or burgers.

Containers

- The Supa Bowls offer a strong, resistant packaging option and clean presentation for both hot and cold meals. They are easy to stack and de-stack especially during the lunch rush.
- The Paper way container is compostable, durable, reliable and perfect for hot and cold takeaway meals. It's the paper way forward in replacing plastic containers.
- Our portion cups are PET clear cups that are perfect for take away sauces and dips. They are ideal for hot and cold foods and come in a variety of sizes.
- Enhance your presentation and increase sales with our range of sandwich wedges, helping to keep product fresher for longer.

Grease Proof Paper

Grease proof paper is perfect for eat in and take away food. With superior wet strength to stop grease penetration, it ensures no grease or oil leaks through. It has been created from virgin reels and is sanitized, clean and suitable for use in wrapping or lining trays and platters for functionality and visual appeal.

Made from food safe paper, doilies are a hygienic option and offer a classic style to make your food stand out.

Flags, Picks & Markers

All our paddles are made from plantation birch timber and our skewers from plantation bamboo. So we can guarantee they are 100% biodegradable.

This means you can feel free to:

- Add flair to your food with our burger picks, flag picks and steak markers
- Identify your steak with our colour coded paddles or steak marker flags
- Promote your organic or gluten-free produce, so customers can make safe choices.

We can also provide custom-printed flags. Call our office or ask your local distributor for more information. Minimum order quantities apply.

Skewers & Carnival

MADE FROM FSC® CERTIFIED MATERIALS

BBQs have evolved over time and have become much more than just 'throwing another snag on the barbie'. With meat, vegetables and seafood some of the most common items, it is important to have an easy and safe way to cook delicious food. Our bamboo skewers are made of material from well managed FSC®-certified forests and perfect for loading meat or vegetables ready for your next BBQ.

The carnival range is suited for fairy floss, Dagwood dogs and curly potatoes. At Green Life Warehouse, we offer a large variety of different lengths and diameters suited for different needs.

MEETS STANDARDS

Hot Cups

Our Hot Cups are made using an Ingeo™ PLA inner lining which is made from all-natural and sustainable plant starch. PLA stands for Polylactic Acid which is a resin made from corn starch. The use of corn based plastic also requires less energy and generates less greenhouse gas in manufacturing, therefore reducing your environmental foot print.

These cups are Biodegradable and can be disposed of in a commercial composting waste stream making them a great choice for your business.

Cold Cups

Our Hot Cups are available in PLA or PET with both having their own eco-friendly advantages.

The Ingeo™ PLA inner lining is made from all-natural and sustainable plant starch. PLA stands for Polylactic Acid which is a resin made from corn starch. The use of corn based plastic also requires less energy and generates less greenhouse gas in manufacturing, therefore reducing your environmental foot print.

These cups are Biodegradable and can be disposed of in a commercial composting waste stream making them a great choice for your business.

PET provides a strong cup with excellent clarity, ideal for Iced Coffees and nutrient filled, colourful juices and smoothies. They can be recycled in home curbside recycling bins.

Stix To Go[®]
Seal It Tight
Keep It Hot

Coffee Accessories

Our Stirrers allow you to mix your drink with ease while being light on the environment. They are made from FSC[®] Certified Plantation Birch Timber from sustainable and well - managed forests.

Stix To Go Coffee Stoppers will protect your coffee from spills. Fantastic for deliveries and coffee runs. They are made of plastic and can even be reused.

The Stay Tray is Australia's first and only reusable drink tray made from 100% recycled material. It was designed to make your coffee run, play dates and picnics a breeze while also being good to the environment. Made from polypropylene 100% recycled plastic, Stay tray is super durable. Its weather-resistant and UV-stable. Its also dishwasher safe, and clocks in at a mere 170 grams. Most standard drink vessels should fit snugly. You can choose your preferred shade of Stay tray, and even get a custom branded one.

Alternately, our 4 cup carry tray is compostable, biodegradable and recyclable and great for the environment.

NATURE'S MOST POWERFUL SANITISER STRAIGHT OUT OF THE TAP.

Rethink the way you
sanitise...deodorise...clean.

Save time, save money and
improve workplace health &
safety using **aqueous ozone**.

- Cleans, deodorises & sanitizes in only 30 seconds
- No chemicals - just tap water
- Food contact safe
- Removes odours and leaves no residue
- Kills 99.9% of bacteria including E. coli, Salmonella and Staph A.
- 5000 refills per battery life
- 10 refills per charge

Enozo (Aqueous Ozone)

NEW! NEW! NEW!
NEW! NEW! NEW!

The Enozo spray bottle offers a water-based alternative to traditional cleaners, deodorisers and sanitisers.

Using revolutionary technology, Enozo kills 99.9% of bacteria in only 30 seconds. Inside the spray bottle is a state-of-the-art electrolytic cell that turns normal tap water into aqueous ozone (AO) – nature’s most powerful sanitiser.

Enozo can replace many cleaners, including hard surface cleaners, glass cleaners, stainless steel cleaners, room deodorisers and more.
