

Stûv 30 Compact freestanding fire

## Three sources of inspiration.

Heating, innovation and aesthetics are all sources of inspiration for Stûv fireplaces. The Stûv 30 Compact Rural model offers three operating modes: the open door setting lets you enjoy a crackling fire with a pleasant diffusion of heat; the glass door setting is a call to admire the inviting spectacle of the flames; and the closed door position will provide a gentle heat throughout the home. This 'compact' version of the Stûv 30 is also ideal for well insulated low-energy homes or compact dwellings.

**NOTE: This model is suitable only for installations into homes on properties 2ha or larger.**

## Key Features

-  3 doors for 3 modes of operation
-  Perfect heat for well insulated homes
-  Connects directly to outside air
-  Stove can be rotated up to 360°
