

Stûv 30 freestanding fire

Three sources of inspiration.

Heating, innovation and aesthetics are all sources of inspiration for Stûv fireplaces. Manufactured in Belgium, this Stûv 30 Rural wood stove offers three operating modes: the open door setting lets you enjoy a crackling fire with a pleasant diffusion of heat; the glass door setting is a call to admire the inviting spectacle of the flames; and the closed door position will provide a gentle heat throughout the home. Safe and efficient, Stûv heralds a new simplicity and sophistication in fireplace design.

NOTE: This model is suitable only for installations into homes on properties 2ha or larger.

Key Features

-  3 doors for 3 modes of operation
-  High heat output
-  Connects directly to outside air
-  360° rotational kit
-  Built-in ash container

Product Specifications

(All dimensions in millimetres)

Model	10030010
Average Heat Output	Up to 10kW
Efficiency	67%
Emissions	1.1g/kg
Fuel Source	Wood
Weight	215kg

Product Dimensions

MODEL	A	B	C
