

Harrison Spinks

The True Bedmakers

HANDCRAFTED IN GREAT BRITAIN SINCE 1840

WORLD LEADERS IN
LUXURY SUSTAINABLE
COMFORT

Harrison Spinks is a fifth generation family bedmaker that represents the best in British manufacturing. All of our mattresses are 100% recyclable and 100% foam and FR chemical treatment free – better for a healthy sleep and kinder to the planet.

Here at Harrison Spinks we are changing the way the world sleeps.

World leaders in sustainable manufacturing

Our beds are home-grown

Inventors, innovators and passionate perfectionists

From our family to yours

Handcrafting luxury

WE ARE
THE TRUE BEDMAKERS

The world's most sustainable bed manufacturer

A good night's sleep comes from environmentally sound materials, which means sustainability is at the heart of everything we do. We believe a sleep environment that is glue free, foam free and FR chemical treatment free is healthier and significantly reduces our impact on the planet.

Our efforts in sustainable manufacturing have been recognised with not one but two Queen's Awards for Enterprise in Sustainable Development. We are also proud to have gained a Carbon Neutral+ accreditation.

From growing our own natural fillings, to designing glue free spring systems to weaving FR chemical free mattress fabric in-house, we pledge to designing and making only mattresses that are 100% recyclable at the end of their life.

Knowing we are doing the right thing means we can all rest easy.

REDUCTION IN LANDFILL IN 2018 = **30%**
A TOTAL OF **289 TONNES**

THE QUEEN'S AWARDS FOR ENTERPRISE: SUSTAINABLE DEVELOPMENT 2019

100% OF OUR HEMP CROP IS USED = ZERO WASTAGE

1.3 MILLION SQM OF FR CHEMICAL FREE TICK IS WOVEN IN OUR FACTORY
REMOVING THE NEED FOR **500KG** OF FR CHEMICALS A YEAR

BY PRODUCING OUR OWN MATERIALS, WE SAVE

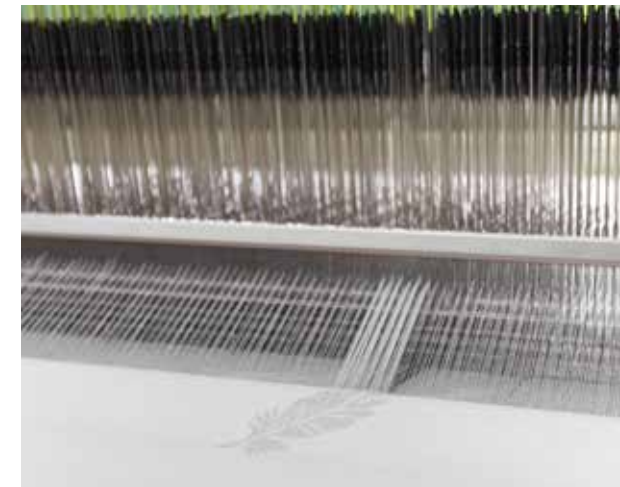

1,300

TONNES OF CO₂ PER YEAR

100%

RECYCLABLE SPRINGS REPLACE FOAM = ZERO TO LANDFILL

900 TONNES OF CO₂ SAVED EACH YEAR DUE TO SMALL MACHINE FOOTPRINTS

ALL WOOD IS FSC® CERTIFIED INCLUDING FROM OUR OWN

56-ACRE

WOODLAND IN NORTH YORKSHIRE

FSC® C113329
The mark of responsible forestry

EVERY HECTARE
OF HEMP WE
GROW ABSORBS
22 TONNES
OF CO₂
EACH YEAR

Our beds are home-grown in Yorkshire

Our beds don't start life in a factory but on the Harrison Spinks 300 acre farm in North Yorkshire.

It is here that we rear sheep on rich, untreated pastures and tend fertile fields of hemp and flax crops. Our hemp and flax crops produce super-absorbent fibres that help to absorb moisture from the mattress while you sleep, keeping you cool and dry.

We use no pesticides to grow our hemp and flax. Instead, these fibres are grown the way we believe they should be: naturally. This greatly lessens the impact on the environment by reducing CO₂ emissions, which helps us and you rest easier.

We see ourselves as the NASA of the bed world. We're forever pushing the boundaries of science to develop truly ground-breaking technology.

DAVE CLARE
DEVELOPMENT DIRECTOR

We don't just make springs, we make the machines that make our springs. Our Development Team of engineers design and build all our ultra-fast machines in-house at our Innovation Centre.

Inventors, innovators and passionate perfectionists since 1840

Innovation is at the heart of everything Harrison Spinks does. We are always dreaming up new ideas to ensure you sleep soundly every night, you could say it's what gets us out of bed in the morning.

Our dedicated team of engineers work to develop the latest in comfort technology and our continuous investment in spring systems has allowed us to become the most vertically integrated bed manufacturer in the world.

Harrison Spinks have been recognised with three Queen's Awards for Enterprise. Awarded by Her Majesty The Queen to businesses for outstanding achievement. We are proud to have awards for Innovation, Sustainable Development and International Trade.

From our family to yours

Family bed makers for over 180 years, Harrison Spinks is a fifth generation family business that today has over 600 employees; from farmers who rear our sheep to craftsmen and women who use time-honoured skills to sew, side-stitch and tuft each mattress by hand to the highest standards.

Harrison Spinks represents the best in British manufacturing.

Handcrafting luxury

Our skilled craftsman and women use traditional bed making techniques to hand sew, side-stitch and tuft every mattress.

These time-honoured skills have often been passed from generation to generation resulting in beautiful beds that are of the highest quality and represent the best in British manufacturing. Nothing beats a trained eye and a skilled hand.

In 2019, we featured on BBC's Inside the Factory, where Gregg Wallace discovered how to make a Harrison Spinks mattress.

THE MOST
INNOVATIVE SUPPORT
TECHNOLOGY YOU'LL
FIND ANYWHERE
IN THE WORLD

100% FR CHEMICAL TREATMENT FREE FABRIC

Our ethos focuses on healthier sleep and that means creating sleep surfaces entirely free from harmful chemicals. We carefully combine state-of-the-art looms with traditional weaving methods to weave our own luxurious Fire Retardant, FR chemical treatment free mattress fabric, which snugly envelops every Harrison Spinks mattress. Each sumptuous mattress is glue free, foam free and FR chemical treatment free.

POSTURE ZONE

Our unique Posture Zone technology offers more targeted and responsive support to the area of the body that requires it the most; the hip region. Each individual micro spring contours to your body with precision accuracy and superior support while keeping your spine in a neutral position.

SUPPORTIVE SPRING SYSTEM

Deep within each Harrison Spinks mattress sits advanced 100% recyclable, sustainable and glue free Quad core pocket springs. These ultra-fine wire pocket springs, with more individual points of contact, adapt to contour to greater accuracy and precision to provide superb comfort. As no glue is used in the manufacture of these pocket springs, they are fully recyclable at the end of the mattress' life.

HOME-GROWN LUXURY

Using only the most luxurious 100% natural fillings, carefully blended to make the perfect, luxurious sleep environment, we work with many fibres – some of which come from our own farm. Chosen for their sumptuous softness, inherent resilience, breathability and temperature controlling qualities these are handcrafted into every mattress.

Enhance your sleep experience

Our mattress enhancers are designed to give your mattress an extra layer of luxury, for even greater comfort and softness.

Handmade to order in any size, our range of luxury enhancers attach on to any of our Harrison Spinks mattresses. Generously filled with the finest natural and sustainable fillings and our HD Micro springs, our enhancers are dual sided, allowing you to easily turn them over and refresh your sleeping surface.

The True Bedmakers since 1840

◆ 1840

The Bedding House of Rhodes is established.

◆ 1958

Launch of the industry-leading pop-up bed and patent.

◆ 2000

The prestigious Somnus trade name is re-acquired, bringing the brand home to Leeds once more.

◆ 2007

As the industry champions memory foam, Harrison Spinks focuses on increasing the natural fibre content of their mattresses.

◆ 2011

A 56-acre FSC® certified woodland is acquired with the aim of sourcing timber more locally.

◆ 2014

The company begins to draw wire from steel rod, allowing finer wire to be produced.

◆ 2018

Harrison Spinks are awarded another two Queen's Awards for Enterprise in Innovation and International Trade and remains the only bed manufacturer to receive two Queens Awards in the same year.

◆ 2019

Harrison Spinks are awarded a Queen's Award in Sustainable Development.

◆ 2020

Harrison Spinks is the first bed manufacturer to go foam free.

Harrison Spinks is awarded Carbon Neutral+ Status.

Quad rolled goes live.

1840

◆ 1885

Spink & Edgar begins trading.

SPINK & EDGAR
EST 1885

◆ 1995

Simon Spinks designs the Millennium Award-winning Revolution® pocket spring.

◆ 2003

Innovation in spring technology results in the invention of low-height micro coil pocket springs, which evolve over the years to become even smaller.

◆ 2009

Harrison Spinks purchases The Harrison Spinks farm, where sheep are reared and hemp and flax are grown to replace man made fibres.

◆ 2013

Harrison Spinks is awarded two Queen's Awards for Enterprise in Sustainable Development and Innovation.

Harrison Spinks launch their first direct to consumer campaign and introduce their mascot, Harrison.

Harrison Spinks is featured on BBC Two's Inside the Factory.

Harrison Spinks start weaving their own chemical free mattress fabric on their state-of-the-art-weaving looms.
