

*Please read and follow all instructions carefully. Hazardous materials shipments will be returned to you if they have incomplete documentation, or if labels are covered by tape or other materials.

1. The shipping documents that are included with this packaging are labeled on the left, according to where they should be placed. The 1st is already affixed to your shipping box (**see image A**).

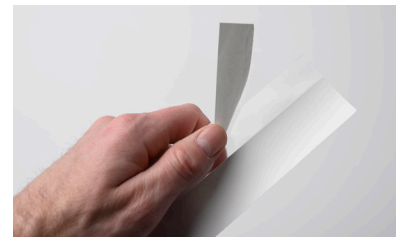

The 2nd is a copy for the FedEx driver and **MUST** go with the driver upon his/her pickup. **FAILURE TO ENSURE THIS IS IN THE DRIVER'S IMMEDIATE POSSESSION WILL RESULT IN THE UNIT BEING RETURNED BY FEDEX TO YOU, THE CUSTOMER (see image 1B).** The 3rd is labeled "Customer Copy" (**see image 2B**). This is your receipt for this shipment, and you will keep it for your own records.

ATTENTION: HAND SIGNATURE REQUIRED NEXT TO PRINTED NAME.
(See yellow box in image A, and 1B for location)

The rest of the documents will say "Place in Pouch" and should be placed in red and white pouch provided. The pouch will be attached to the top of the box after it has been taped shut, so you can set it aside for now. The other required labels are already affixed to the box (**see image C**).

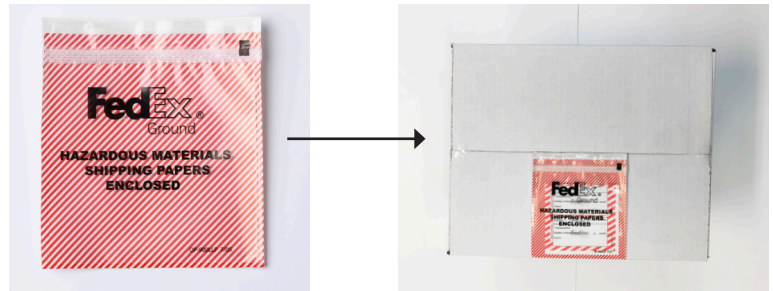

2. Assemble the box. Start by closing and taping the bottom flaps with tape strips or packing tape.

3. Put your Yeti power station back into its original packaging or obtain a sturdy inner box and place the unit inside. Place the boxed power station into the new hazmat labeled box you have just received, and close and tape the top flaps using tape strips or packing tape.

4. After taping the top of the box shut, peel the paper from the back of the "Hazardous Materials Shipping Papers" pouch, insert hazmat papers that say "Place in Pouch" (see #1) and stick to the top of the box as shown.

5. Schedule a pick-up. Find your tracking number below the barcode of your "HAZMAT" shipping label – you will need this when you schedule the pick-up.

Call FedEx at 1-800-463-3339 to schedule a FedEx Ground PRP Hazmat pickup. Not all FedEx locations can accept hazmat shipments, so it is important to schedule a pick-up. Do not drop the package off at a FedEx location for shipment.

6. When the FedEx driver arrives to pick up the box, please give them the "FedEx Copy" portion of the shipping documents, and remember to keep your "Customer Copy."

***if you have any questions or concerns as you process this return, please contact us at 888-794-6250 for support.**
