

# CHARLES & IVY

## Ripple Collection

Luxury Composite Fencing

Charles & Ivy began with a simple observation:

Conventional fencing, gates and screening is unremarkable, dull and maintenance-heavy.

We made it our mission to **create a stylish, durable and a low-maintenance modular fencing and gate system.**

As our ideas developed, we saw the potential for our products to **further elevate outdoor** spaces.

We have designed a **modular fencing and gate system** which offers a broad range of creative, beautiful and long-lasting options for your garden.

Our fencing products are **exclusive and designed by Charles & Ivy.**

## Ripple fencing collection

Create a unique and unparalleled look with our luxury composite Ripple Fencing. We have designed this collection to have a textured, "rippled" appearance that is similar to traditional wooden fencing, but with the added benefits of durability and no maintenance.

All fencing can be paired with any of our Decorative Screens and matched with our Pedestrian and Driveway Gates. Not only does our Fencing keep your space secure and private, it also enhances the overall look and value of your property.

## Add a matching pedestrian gate to your classic fence

Our Classic Composite Pedestrian and Driveway Gates are designed to complement our range of Classic Fences. All gates can be paired with any of our classic fencing collections and are available in 8 colours. Gates are available from height 94cm to 184cm and can be customised to fit your space up to a width of 120cm.

Gates are crafted using marine-grade powder-coated aluminum frames and eco-friendly composite slats and screens. Our gates are not only secure but offer privacy whilst adding aesthetic value to your property. All gates come with lockable door handles (no door handles on Driveway Gates when used with automation).

# Eco-Friendly

Charles and Ivy are the UK's largest composite fencing supplier, known for our innovative designs and commitment to sustainability. We produce a range of eco-friendly composite products such as fencing, gates, planters, decorative screens and more, made from recycled plastic materials.

We pride ourselves on using recycled plastic to create high-quality, long-lasting products that are both functional and good for the environment. By diverting plastic waste from landfills and reducing the demand for new plastic, we are able to make a positive impact on the planet, whilst also meeting the needs of our customers. We are dedicated to designing and producing sustainable solutions that are both beautiful and durable

## Benefits of composite slatted fencing

### Weatherproof

Our tough composite resists rot, mould, and has in-built UV protection ensuring the colour will not fade.

### No Maintenance

Our composite is easy to clean and you'll never need to paint, treat or stain.

### Adaptable

You can cut our composite products to the size you need without compromising the structural integrity.

### Slat Finish

Our fully weatherproof 18mm thick slats feature a light wood grained finish on both sides.

### Eco-friendly

All of our fences are eco-friendly and manufactured using recycled plastics.

## Fence post types

### Concrete Posts

When fitting our fencing into your existing concrete posts, we supply you with side channels, top and bottom cappings, slats of your choice and brackets to secure in place. The channel and cappings are in black. The heights are available from 30cm to 180cm.

### Composite Posts

Each composite post comes with a post cap, base plate, base plate cover and fixing kit to suit where fencing is situated. The heights available are from 38cm to 270cm. The post heights above 210cm are for use when sunken into the ground. The posts can be used for both straight runs and corners. Posts are available in black or to match your slat colour.

### Aluminium Posts

Each aluminium post comes with a post cap, base plate, base plate cover and fixing kit to suit where fencing is situated. The heights available are from 38cm to 270cm. The post heights above 210cm are for use when sunken into the ground. The posts can be used for both straight runs and corners. Posts are available in black.

## How to install fencing

There are several ways to install fencing, and the specific method you choose will depend on the type of fence you are installing, the terrain and conditions of the installation site, and your personal preferences and skills. Here are the three most common methods for installing fencing.

**Our products have been designed for straightforward installation by a confident DIY-er or handyman.**

If you have any design ideas that you cannot find available on our website, please contact us to speak with one of our product specialists to discuss your design ideas.

Charles & Ivy products are built to the highest standards of quality and craftsmanship.

## FAQ's

### **What are the posts made from?**

Our composite posts are made from a premium composite using recycled wood powder and plastics. Our highly durable posts are all fully weatherproof, UV protected and require no maintenance, painting, or staining. Our aluminium posts are manufactured using a high-grade aluminium, with an industry leading wall thickness of 1.8mm. All our metalwork is then powder coated to marine-grade standard, resulting in a robust and superior aesthetic finish.

### **What is the finish on your slats?**

The Classic and Ripple range has a deep grain finish and the Hudson range has a light textured finish on both sides.

### **Is there a warranty?**

We're confident in the quality and durability of our products. That's why we offer an industry-leading 20 years warranty.

### **Can your posts be sunk into the ground?**

Yes if chosen, our posts can be sunk into the ground, we recommend sinking any 37cm to 120cm posts, 30cm into the ground and any 150cm to 210cm posts 60cm into the ground.

### **Do I need need to order an additional post to finish the run of fencing?**

No, your end post is included in the price, you will see this added to your basket as 'Additional end post'.

### **Can I use the posts on corners?**

Yes, our posts have slots down each side so you can use them both on straights or corners. We also provide the blanking strips for the empty channels you won't be using.

## What are the product dimensions?

If you have any other questions,  
please contact our product specialists  
who are available **7 days a week**.

\*Our fencing can fit into your existing concrete posts or our aluminium and composite posts.
