CHARLES & IVY

Mid Grey
240cm x 60cm InsuSlat™ Panel

OUR VISION

Charles & Ivy began with a simple observation; we made it our mission to transform blank, dull spaces into something truly extraordinary. As our ideas developed, we saw the potential for our products to elevate indoor spaces.

We have designed a range of luxurious indoor Slat Wall Panels which offer a broad range of creative, beautiful and long-lasting options for your home.

WHY CHOOSE US

Transform your home with our luxurious and maintenance free InsuSlat™ Wall Panelling.

Our easy to install slats not only add a personal touch to your interior space, but provide an eco-friendly and insulating element to your home. Unleash your creativity and make your home truly yours with our versatile and practical InsuSlat™ Wall Panels.

DESIGNED FOR ELEGANCE

Our panels are the epitome of sophistication. Crafted with meticulous attention to detail, they not only elevate the aesthetics of your space but also serve as a functional addition to enhance comfort.

The sleek Wood Veneer or Antique Veneer finish options offer a time-less charm that seamlessly complements various interior styles, ensuring a perfect match for your vision.

AT YOUR SERVICE

Charles & Ivy have a large team of product specialists available 7 days a week online, on the phone and at our Showrooms; all on hand to answer and assist with any questions or product queries, or to help provide some inspiration of what style could suit your interior space.

All of our guaranteed products are available to buy on our website and held in stock. We will deliver all items using our own in-house logistics team.

INSULATE YOUR HOME

DID YOU KNOW...

Approximately 35% of the heat in your house escapes through your walls. Not only are you transforming your home with our InsuSlat™ wall panels, but you are significantly reducing heat loss, resulting in lower energy bills.

ABSORB THE SOUND

Our InsuSlat™ wall panels have been tested and approved with the sound absorption coefficient (A) meaning they are the perfect solution to address any sound echo or reverberation.

With InsuSlat™ wall panels, you don't just get style; you get substance. These panels are engineered to provide exceptional insulation and acoustic performance. Say goodbye to unwanted noise disturbances and hello to a quieter, more serene atmosphere.

STRAIGHT FORWARD INSTALLATION

Transforming your space with our InsuSlat™ Wall Panels is a hassle-free endeavor. Our simple 4-step installation process ensures that you can enjoy the benefits of our panels without the need for extensive expertise. Whether it's your home or your business, you can revamp your surroundings with ease.

How to install InsuSlat™

TOOLS YOU WILL NEED

Screwdriver (if screwing to a wall)
Tape measure
Fine-toothed saw (if cutting down)
Safety knife
Application gun (if applying grab adhesive)

FIXINGS REQUIRED

For bonding to wall - grab adhesive and application gun. Or alternatively,
for screwing to wall (through felt backing) - black drywall screws, 35mm x 3.5mm x (with
suitable wall plugs).

STEPS

1. Measure area where panels are to be fitted.
2. Cut panels to length where required with a fine-toothed handsaw, when fixing your last panel, carefully cut to your desired width using a sharp blade (through felt backing) or fine-tooth saw (through wooden slats).
3. Fix LUMISlat™ into place using your chosen fixing method.

If you have any other installation questions, please call our product specialists via phone, chat or email. Lines open 9am to 7pm, 7 days a week.

How to install InsuSlat™ with Top Trim Batten

Our Top Trim Battens bond directly to the wall with grab adhesive and must be fixed into place before InsuSlat™.

TOOLS YOU WILL NEED

Tape measure
Fine-toothed saw (if cutting down)
Application gun (if applying grab adhesive)

FIXINGS REQUIRED

Grab adhesive and application gun.

STEPS

1. Measure length where top batten is to be fitted.
2. Cut batten to length with fine-toothed saw.
3. Fix into place with grab adhesive.

How to install InsuSlat™ with Top Trim LUMISlat™

When fixing our Top Trim LUMISlat™ option, this MUST be fitted before InsuSlat™ as LED power supply wire is fitted behind InsuSlat™ panels.

FIXINGS REQUIRED

Grab adhesive and application gun.

STEPS

1. Measure area where panels are to be fitted.
2. Cut top trim to length with fine-toothed saw (please note, LUMISlat™ lights can be cut with scissors at 25mm intervals as per marked on LUMISlat™ light strip with scissors.
3. Fix into place with grab adhesive.
4. Ensure power supply wires are in place and fix InsuSlat panels over wires.
5. Connect wires to plug in power supply.

FAQs

What is InsuSlat™ made from?

Our InsuSlat™ is made of a black acoustic felt (made of recycled plastics). The slats have an MDF core with a wood veneer surface.

Is the InsuSlat™ felt breathable?

Yes, the acoustic felt is breathable.

Can I cut InsuSlat™ to specific sizes?

Yes, InsuSlat™ Wall Panels are simple to cut with a small saw or safety knife.

What are the individual InsuSlat™ dimensions?

The InsuSlat™ dimensions are 17mm(width) - 8mm(depth) - 13mm gap.

How many InsuSlat™ Wall Panels do I need for my project?

Head to www.charlesandivy.co.uk where you'll find a calculator to generate how many packs of InsuSlat™ you'll need. Please ensure to add 10% to your order to allow for off cuts.

Are the InsuSlat™ colours consistent?

Yes, all InsuSlat™ Wall Panels undergo a strict quality control process to ensure they arrive to you in perfect condition, time after time.

Can InsuSlat™ Wall Panels be mixed and matched together?

Yes, all of our InsuSlat™ Wall Panels can be mixed to create your own design layout. All InsuSlat™ can be installed horizontally or vertically.

How do InsuSlat™ Wall Panels arrive?

The InsuSlat™ Wall Panels are delivered free of charge (subject to minimum spend) by our own in-house delivery team. This ensures prompt and safe delivery.

Can InsuSlat™ be used in a bathroom or kitchen?

InsuSlat™ are compatible in these areas so long as they are not in direct contact with water or heat. We advise using a water repellent sealant upon installation.

Can I create a hidden door with InsuSlat™?

Yes - this is a common use for InsuSlat™.

What surfaces can I install InsuSlat™ onto?

You can install InsuSlat™ on most surfaces including brick, concrete and plasterboard. To achieve best results we advise that the surface you apply the InsuSlat™ onto is as flat as possible.

Is mounting InsuSlat™ around curved corners possible?

Yes, InsuSlat™ is flexible enough to bend around small curves.

What type of screws do I need to install?

We recommend black drywall screws and wall plugs if your desired method is to screw InsuSlat™ to your wall.

Can grab adhesive be used to install InsuSlat™?

Yes, InsuSlat™ can also be installed with any good household named grab adhesives.

Can I mount hooks on the InsuSlat™?

Yes, you can easily mount hooks on the InsuSlat™ Wall Panels.

Is LUMISlat™ easy to install?

Yes, LUMISlat™ is simple to install using grab adhesive. The LED is plug in, so requires no wiring. Please ensure that LUMISlat™ is installed before InsuSlat™. This is because the InsuSlat™ is placed over any LED wiring.

Can LUMISlat™ be trimmed for perfect installation?

Yes, LUMISlat™ can be cut every 2.5cm, the cut locations are marked on the LED lighting.

Is LUMISlat™ plug in?

Yes, our LUMISlat™ can also be hard wired.

How long is the LUMISlat™ power lead?

The LUMISlat™ power lead is 6 meters long.

Is LUMISlat™ CE certified?

Yes, LUMISlat™ is CE certified.

What is the LUMISlat™ LED light colour?

The LUMISlat™ LED light colour is 3000K.

What is your returns policy?

You can return any unused and unpacked panels within 30 days of delivery. There is a collection fee of £40.
