CRAFTMARK is a world *__LEADER__* in Durable Cable Identification Products.

CRAFTMARK Cable marking products are sold and shipped to countries around the globe. **CRAFTMARK** has become synonymous with *"The-go-to-company"* for utility providers and servicers for a complete array of products from tags, labels, markers, signs and decals.

CRAFTMARK is the *__INDUSTRY EXPERT__* in providing marking products that meet or exceed the various specifications that exist around the globe.
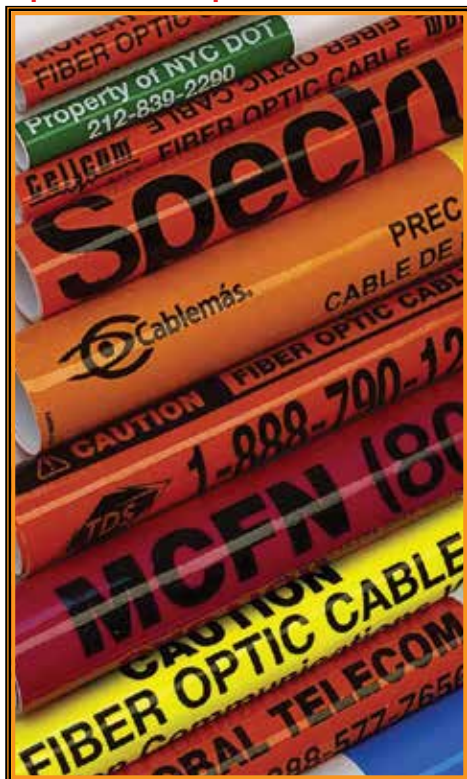

Around the globe there are various specifications that are all focused on the same end results- Safety & Identification. Whether it's ASME/ANSI, GHS/CLP, European Standard, Australian Standard, British Standard, ISO 14726, CGA/NFPA, IIAR Bulletin #114- **CRAFTMARK** has products to meet or exceed the industry standards. **CRAFTMARK** is *"The-go-to-company"* for durable marking products.

CRAFTMARK is an *__INNOVATOR__* with a fully staffed Research, Product Development and Testing Center

Our marking products are developed, designed and tested to assure product durability. Products are tested to ASTM standards for outdoor durability including UV resistance, condensation and salt water. In addition, our high-temperature and high performance Products are tested for chemical and heat resistance. We Have been called upon on many instances to develop hybrid variations of our markers which may envelop several specifications and meet varying environmental challenges.
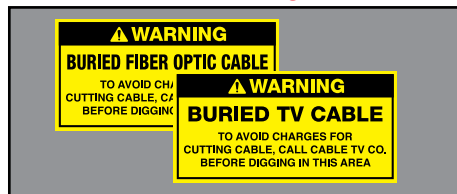

CRAFTMARK
CABLE MARKERS SINCE 1959

SpecMark™ Snap On™ Cable Markers are the solution to cable identification projects. These markers simply "snap on" the cable and stay there for the life of the marker. Your information is printed repeatedly in 360 degree fashion around the marker so that it is visible from all directions. Bright, UV inhibited colors can be printed in your choice of design, color, text. You will be able to identify your lines with ease and keep others from mistakenly disturbing your cable instead of theirs.

- **No art or set up charges like other brands.**
- **No minimum orders.**
- Marker snaps on any aerial cable, aerial fiber or aerial CATV lines.
- Brilliant UV stable colors and material for easy aerial identification and years of fade free outdoor performance.
- 360 degree visibility
- Installation is extremely user friendly as they require:
  - Seconds to install
  - No cable ties needed
  - No adhesive required
  - No assembly required
- 8 standard sizes available to choose from or order custom sized to fit your exacting needs.
- Fully customizable with your information including logo, colors, text, cable count, to and from info, etc.
- 7+ year environment lifespan.
- Markers can be written on with permanent markers.

Precoiled Plastic Markers. Custom printed per your specifications!

TO ORDER

☐ Determine the style/size you will need from the chart or design your own size. If you're designing your own style make sure you let us know the outside diameter of the cable so that we can get the correct fit.

☐ Determine the quantity of markers you will need for the job.

☐ Email us the information and we will prepare a quote typically within hours. Once you let us know we will prepare the no charge art proof for your inspection!

☐ Let us know the colors and text including logo, phone number whatever you would like. We will prepare a no charge art proof for you to look at and make any changes that you may need.

SpecMark™ Ultra-Snap™ Cable Markers are the solution to longer term cable identification projects. These markers simply "snap on" the cable and stay there for the life of the marker. The Ultra-Snap™ has a crystal clear UV over-lamination that sheds harmful UV rays, moisture and adds abrasion resistance. Your information is printed repeatedly in 360 degree fashion around the marker so that it is visible from all directions. Bright, UV inhibited colors can be printed in your choice of design, color, text. You will be able to identify your lines with ease and keep others from mistakenly disturbing your cable instead of theirs.

➢ **No art or set up charges like other brands.**
➢ **No minimum orders.**
➢ The ultimate in outdoor durability. The Ultra-Snap™ has a crystal clear UV resistant over lamination that provides both UV resistance along with tough abrasion resistance.
➢ Marker snaps on any aerial cable, aerial fiber or aerial CATV lines.
➢ Brilliant UV stable colors and material for easy aerial identification and years of fade free outdoor performance.
➢ 360 degree visibility
➢ Installation is extremely user friendly as they require:
  • Seconds to install
  • No cable ties needed
  • No adhesive required
  • No assembly required
➢ 8 standard sizes available to choose from or order custom sized to fit your exacting needs.
➢ Fully customizable with your information including logo, colors, text, cable count, to and from info, etc.
➢ 10 year environment lifespan.
➢ Markers can be written on with permanent markers.

SpecMark™ Ultra-SnapFlag™ features the advantages of a snap on marker along with the added visibility of a flag which hangs beneath the marker with your exact information boldly printed on. These markers are not the same cheaper made, thin versions from other suppliers. These markers are opaque meaning that you can not see through to the other side when the sunlight is shining on it. These are premium grade markers with tough UV resistant inks that hold up for years outdoors. Available in 6 standard styles as well as custom sizes to fit your requirements.

.015" Thick (.38mm)

Flag area is Heavy Duty .050"(1.27mm) thick for durability as well as keeping the flag hanging downward.

➢ **No art or set up charges like other brands**
➢ **No minimum order.**
➢ Marker snaps on any aerial cable, aerial fiber or aerial CATV lines.
➢ Flag area is extra heavy duty .050" thick (1.27mm)
➢ Premium markers have a tough crystal-clear UV resistant overlamintion that provides both UV and abrasion resistance.
➢ Brilliant UV stable colors and material for easy aerial identification and years of fade free outdoor performance.
➢ 360 degree visibility.
➢ 6 standard sizes available to choose from or order custom sized to fit your exacting needs.
➢ Fully customizable with your information including logo, colors, text, cable count, to and from info, etc.
➢ 10 year environment lifespan.

CableCode™ Snap On™ is an efficient and professional way to color code and label conduit and cable bundles. Bright color coded markers keep cables bundled and marked. Use to identify conduit to communicate service designations, bundle origins & destinations. CableCode™ markers are available in solid colors as well as striped and/or text per your specification. One of the biggest benefits of these markers as compared to banding tape is that they can be removed for updating cabling and simply snapped back around the bundle or conduit. Markers are great for indoor/outdoor use.

➤ Simply "Snap" the marker around the conduit or cable bundle.

➤ Available in 6 standard diameter sizes with or without text.

➤ Available in standard 2" wide or any custom width as needed.

➤ Available in 12 standard colors and can be custom printed in any color combination as needed.

**Fluorescent kits contain 20 each of -fl. Green, fl. Pink, fl. Yellow, fl. Orange and fl. Blue.

CapCover™ Marker Cover-Up Sign is perfect for replacing faded graphics or can be ideal for rebranding. Our marker is .020" thick and has a tough, durable-outdoor grade adhesive backing that adheres aggressively to the original cap surface. Graphics are all weather, UV , moisture and abrasion resistant. The sign features a crystal clear over-lamination that sheds UV rays. Marker is very easy and quick to apply and extremely cost effective versus replacing the cap/pipe assembly.
Contact Craftmark for details.

Craftmark's **Domed Curb & Pavement Markers** feature a UV stabilized epoxy "Dome" which remains non-yellowing for years. The ultra-clean looking markers are a professional and effective method of alerting homeowners, contractors and excavators that there are cables , valves or pipelines in the area. These flush mounted markers can be used in areas where above-ground markers are difficult to use or in areas where homeowner concerns make above-ground markers impractical.

➢ .030" UV stabilized plastic base with your choice of message, logo, colors.

➢ Choose from one of our standard shapes/sizes or get a custom shape at no additional charge.

➢ Great for marking any utility line.

➢ Application is simple using permanent industrial adhesive.

➢ Order as few as 10.

➢ No special tools are surface preparation is needed.

➢ Standard APWA colors available as well as any custom color, logo, design.

➢ Reflective backing is also available to make night time visibility easy for crews.

DetectaMark™ DETECTABLE UNDERGROUND TAPE is ideal to protect against costly accidental dig-ins of fiber optic and telephone cables as well as electric power lines. Protect your fiber optic cables from service interruptions and unnecessary repair expenses by investing in Craftmark DetectaMark™. Detectamark™ is available in "Standard Text" as well as fully customizable with your name, logo, phone number and/or message in any language.

➢ Designed to protect, identify and locate underground utility lines.

➢ The solid core is encased between an HDPE scrim coated with 100% virgin polyethylene pigmented resins and a clear protective film that allows a full view of the foil to ensure continuity.

➢ The solid core provides detectability utilizing a pipe and cable locator in either the inductive or conductive modes.

➢ Permanent ink cannot be removed with normal handling or upon burial

➢ The material and ink are chemically inert and will not degrade when exposed to acids, alkalis and other destructive substances commonly found in soils.

➢ Minimal installation costs

➢ Can be installed by plows at same time as utility line.

➢ Available in 1000' rolls.

➢ Available in red, orange, yellow, blue and green.

Flexible Marker Decals are manufactured with outdoor durability in mind. Craftmark Research & Development has developed and tested this product to be the most durable decal available. We use ultra-strong high-tack acrylic adhesive backing that is engineered to stay on the flexible panel. The base material is a 10+ year product that is printed using state-of-the-art UV inhibiting inks. We don't stop there like many brands. We add a thick crystal clear over-laminating film which sheds U.V., moisture, abrasion and air contaminants. These decals are opaque so they are also perfect for rebranding and cover-up. Size is 3" x 15"

- ➢ Durable 10+ year outdoor durability
- ➢ U.V. Inhibiting inks
- ➢ Crystal clear over lamination for durability
- ➢ Choose from the styles above or completely custom at no additional charge.
- ➢ Order as few as 10
- ➢ 3" x 15"

Craftmark
3212 South Cravens Rd.
Fort Worth, Texas 76119

Please understand that we reserve the right to ship +/- 10% of the order quantity on custom products due to the nature of the printing process. Invoice will be adjusted as necessary. Craftmark has no minimum order, no art fees, no die fees and no set up fees!

Terms of Sale- Terms are Net 30 from invoice date for open account customers. Contact us for a credit application for consideration. For all other customers ordering without established credit, Craftmark accepts all major credit cards.

Shipment- Orders are shipped FOB Fort Worth, Texas. Shipping and handling charges are prepaid and added to invoice. Craftmark uses UPS and FedEx for most orders. Please specify if you would like us to use your shipping account.

Damaged Goods/Discrepancies If you receive a damaged package from our carrier it is important that you photograph the box and damaged contents immediately. It is also recommended that you keep all original packaging. We must be notified of any product discrepancies within 30 days of receiving order. No claims will be allowed past 30 days.

Returns- Craftmark allows return of non-custom product with the following guidelines:
- Custom product cannot be returned at any time.
- You must contact our Customer Service Dept. to request a RMA (return material authorization) number. No product over 30 days from receipt will be accepted. Please have original order number available.
- RMA number MUST be clearly labeled on the outside of the package.
- All returned goods must be in clean, resaleable condition and in original packaging.
- Returned product will be fully inspected before a credit to your account is given.
- Returned product that is damaged in shipping will not be considered for return credit.
- There will be a 25% restocking fee for all product accepted for return. This fee will be deducted from your account credit.

Product Warranty-Craftmark Cable Markers products are sold with the understanding that the buyer will test them in actual use and determine for himself their adaptability for his intended use in his geographic location. Craftmark Cable Markers warrants to the buyer that its products are free from defects in material & workmanship but limits its obligation to replacement of the product only. This warranty is in lieu of any other warranty expressed or implied, including , but not limited to any implied warranty of merchantability or fitness for a particular use, and of any other obligations or liability on Craftmark Cable Markers part. Under no circumstances will Craftmark Cable Markers be liable for any loss, damage, expense or consequential damages of any kind arising in connection with the use, or inability to use Craftmark Cable Marker products. Returns must follow guidelines as written in the Returns section. The only obligation that Craftmark Cable Markers will have is the replacement or rework of products deemed defective at the time of Craftmark inspection within the time that this warranty is effective.
