## CM350 MetalPhoto™ Sign

### Anodic Layer

The glass-clear, sapphire-hard anodized layer resists chemicals, paint, abrasion and dirt.

### Sealed Image

Black graphics are metallic silver particles that hold up to extreme heat and sunlight exposure.

### Aluminum Layer

The rigid aluminum base will not peel, crack or delaminate.

CM350 MetalPhoto™ Signs are great medium/heavy duty indoor/outdoor signs. Signs combine extreme durability in harsh environments with a high-quality, long lasting appearance. Signs function perfectly under a wide array of challenging conditions including heat, humidity, extreme weather, UV, salt spray, abrasion, industrial solvents and chemicals. Available with holes or and adhesive back. Available only with black print.
