

Introducing Tablekraft Ambience Collection of LED rechargeable table lamps. Designed to enhance your dining experience, these lamps are visually stunning and embody exceptional quality and durability. Constructed from premium materials, they house a robust lithium battery, ensuring longevity and reliability. The convenience of a Type-C USB cable, included with each lamp, makes charging effortless.

Cordless Rechargeable LED Table Lamps from the Ambience Collection by Tablekraft are not just lighting solutions; they are a statement of style and innovation designed to elevate the ambience of any setting.

## RECHARGEABLE LED LAMPS

Rechargeable LED table lamps provide a versatile and energy-efficient lighting solution featuring long-lasting batteries and adjustable brightness settings, perfect for ambient lighting and focused task illumination.

## USB-C CHARGING

USB-C charging allows faster charging times, making it more efficient for users who need to recharge their lamps quickly. Additionally, the reversible design of the USB-C connector makes it easier to plug in, enhancing the user experience by eliminating the guesswork of the correct orientation.

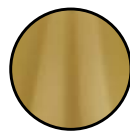

## TOUCH ACTIVATION

Touch-activated table lamps operate on technology that makes it possible to turn the light on or off and adjust brightness levels simply by touching a designated part of the lamp, often the base or a specific area on its body. This feature eliminates the need for traditional switches, making these lamps especially useful in dark places, creating the perfect ambience.

## ACRYLIC FINISH

Acrylic is a versatile plastic material crafted into shapes and designs that mimic the appearance of cut crystal. This process involves cutting and shaping the acrylic into faceted patterns to create a sparkling effect. These acrylic lamps are durable, lightweight, and able to capture the beauty of crystal-cut glass while being more affordable and less fragile.

## ELECTROPLATED METAL FINISH

Electroplating is when a metal object gets a thin coating of another metal using electricity. It's often used to make objects look better, corrosion resistance, and be stronger and last longer. The final finish is smooth, shiny, and lasts longer.

## 12 MONTHS WARRANTY

Our lamps come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure. Where a failure does not amount to a significant fault, Tomkin Australia is entitled to choose between providing you with a repair, replacement or refund.

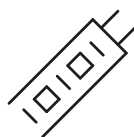

Tablekraft Ambience Crystal table lamps are stunning, showcasing a sleek, contemporary design, perfect for modern interiors. Constructed from transparent Blue, Green, and Purple Acrylic, its unique crystal-like appearance adds a decorative touch and offers practical functionality. Featuring multi-colour touch options, allowing for customisation according to mood or setting. These lamps boast an impressive 8-10 hour operating time, making them stylish and efficient for everyday use.

## OPERATING TIME

The operating time for our rechargeable LED table lamps can reach 8 to 10 hours, varying based on the dimming setting, allowing for extended use without the need for frequent recharging.

## RECHARGEABLE LED LAMPS

Rechargeable LED table lamps provide a versatile and energy-efficient lighting solution featuring long-lasting batteries and adjustable brightness settings, perfect for ambient lighting and focused task illumination.

## 12 MONTHS WARRANTY

Our lamps come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure. Where a failure does not amount to a significant fault, Tomkin Australia is entitled to choose between providing you with a repair, replacement or refund.
