PRODUCT FINISHES

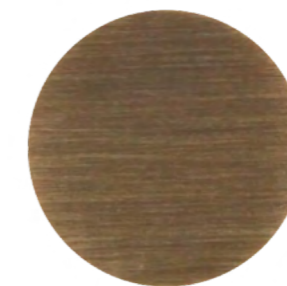

Brass is renowned for its colour and beauty; however, it is also subject to some natural discolouration (patina) over time when exposed to the natural environment of a home or office.

Little Swagger's Brass products are available in multiple finishes. Satin Brass is the classic gold tone prior to any aging or Patina commencing. Our Antique Brass products have had the aging process accelerated prior to the clear lacquer being applied for an antique / aged finish.

All of Little Swagger's brass products are coated with a clear lacquer to extend the time before the aging process commences.
