Driftless Provisions

est. 2019

Driftless Provisions is the celebration of connection we share between the land, animals, farmers, and each other. Our old-world charcuterie craft is rooted in the Driftless Region of SW Wisconsin where there is an abundance of thoughtfulness and intentionality that helps guide us in our work.

Starting out in a root cellar while learning the art of salami, owner and founder Ryan, has honed the profiles of each salami to pay homage to their European roots while being distinctly American. Inspired by the Wisconsin's Driftless region rolling landscape, trout streams, and small family farms, Ryan began planning how to best share this place with people near and far. As an outdoorsman and land steward, the table has always been a place to gather and share in good food and drink with stories of the field. Crafting salami from harvested wild game and local hogs, Ryan found a way to combine place and experience with those around him. That love of food and connection through sharing and story telling has led us to where we are today.

Together, the team at Driftless Provisions creates high quality, premium products that honor the land, animals, and farmers. We are proud to do service to this place through good food and hope you enjoy a little piece of the Driftless.

Salami

Nitrate-free & handcrafted with humanely raised pork

Saucisson Sec

Salt, pepper & garlic

UPC | 860007312182
