

CORPORATE GIFTING *with Driftless Provisions*

Driftless Provisions is the celebration of connection we share between the land, animals, farmers, and each other. Our old-world charcuterie craft is rooted in the Driftless Region of SW Wisconsin where there is an abundance of thoughtfulness and intentionality that helps guide us in our work.

Our award-winning products are handcrafted with real ingredients, always free synthetic nitrates, artificial additives or fillers. We exclusively source humanely-raised, heritage breed Berkshire hogs free of antibiotics and growth hormones. Locally sourced grass-fed beef, honey and maple syrup are other local ingredients we are thrilled to use in our products.
