

## FOGGER

*Wondrous Item, Uncommon*

This spherical bottle swirls with a pale fog so dense that it blocks all light.

As an action, you can spill the contents of this bottle or throw the bottle up to 20 feet, shattering it on impact. If thrown, make a ranged attack against a creature, object, or unoccupied space, treating the bottle as an improvised weapon. A 20-foot-radius sphere of fog billows forth, centered on the spot the bottle was opened or broken. The fog spreads around corners, and its area is considered heavily obscured. The fog dissipates after 1 minute.
