JB10FE Firefighter's Equipment Cabinet

Typical use:

For the storage of 1 complete set of firefighter's equipment, including SCBA. This cabinet is widely used in the Offshore energy and marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

The cabinet comes fitted with 1 shelf and 1 BA clip to hold the SCBA. The uniform is stored folded on the shelf.

The door can be specified with left or right hinging and features a nylon rod handle to pull the door open to guarantee fast access even when wearing gloves.

Standard specification:

Dimensions (mm)

Height x width x depth: 1304 x 788 x 469

Aperture: 1052H x 570W

Internal depth: 415

Weight Kg: 22Kg

Material specification:

Colour: Red RAL3000

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless steel

Handle: Nylon Rod

Seal: EPDM

Optional Extras:

Other RAL colours

316 Stainless steel 3 way locking

Class 1 fire retardant composites

Perspex window with bezel

Manufactured in the UK
