

# STD/SB/PC Standard Security Briefcase

The STD/SB/PC Standard Security Briefcase provides a smart and secure method for the transport of high-sensitivity paper and digital files. It will hold up to two A4 ring binders, or several A4 folders and a 15" laptop. It is also ideal for keys, passes, passports, memory sticks, etc. The light, durable alloy body is protected by a tough powder coat paint finish. The base of the case is lined with strong, soft pigskin, and lid has a matching folio pocket. The contents of the case are protected by a unique integrated hinge and multipoint locking system that will Deter opportunistic theft, and Deny access to all but the most determined and well-equipped attacker. The combination of materials and design means that, should an attacker be successful, any authorised user will immediately Detect the breach.

The external measurements of the STD/SB/PC are 425mm wide, 315mm deep (front to back), and 110mm high. The load space inside the case measures 390mm wide, 275mm deep, and 105mm high. Empty, the case weighs 3kgs.

Each case is supplied with a 750mm long steel tether, that can be used to secure the case to immovable objects, and two keys for the accredited high security lock.
