

iPAD SPR (AED)

Semi-Automatic Defibrillator

Product Code: H50065

Product information

- A NEW, next generation iPAD AED from the iconic iPAD range
 - Semi-automatic defibrillator (AED) for treatment of Sudden Cardiac Arrest (SCA). Analyses the casualty and delivers shock at the press of a button
 - Clear illuminated images on the unit and calm voice prompts will help guide lay people and fully trained responders alike
 - A new and improved soft switch from adult to child mode makes transitioning between the two even easier
- The same set of electrode pads can be used for both adults and children, no additional pads required making it easy to switch from adult to child mode saving precious time and pressure on the user
 - The unit is compact and comes with a handle to make it easy to carry to the patient
 - LCD screen for quick monitoring of the status level
 - The unit has an ambient noise detector, automatically adjusts volume according to background noise so voice prompts can be heard
 - The unit has an IP rating of IP66 meaning it is highly water resistant in rugged and water hazardous environments
 - New USB data transfer includes real time log event and ECG trace and can record up to 5 events (up to 3 hours per event)
 - This defibrillator comes with a set of dual pads with a 4 year battery warranty (up to 5 years life expectancy on standby) and 10 year warranty upon registration
 - The Unit self tests daily, weekly and monthly, leaving it always ready for use

Contents

- 1 x Defibrillator unit
- 1 x Lithium Manganese Oxide battery
- 1 x Adult / child electrode pads
- 1 x Starter kit

Technical Specifications
