## NOT SURE WHICH SIZE OR SHAPE STONE YOU WANT?

We've got you covered.

### KEY

Ensure this key measures 1" x 1" after printing for the most accurate measurement

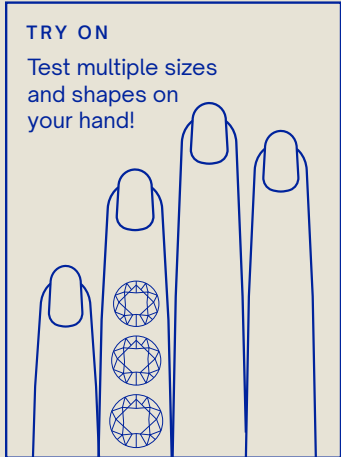

### STEP 1

Print out this handy PDF on 8.5x11" paper, 100% to scale. Double check that our key measures 1" to make sure your print settings are correct and the document printed out to scale. Otherwise the stone sizes will not be accurate.

### STEP 2

Cut out the stones you're interested in and try 'em on!

All carat weights represent approximate diamond equivalent weight. MM to CT comparisons are estimates and not exact. Please note that due to printer variations, we can't guarantee that the sizes will be accurate if the key measurement is not 1".
