To ensure your gumboots are the perfect fit, place your little ones heel on the line at the bottom of the page. Measure both feet (as one may be bigger) from the heel to the longest toe.

The measurements are for the gumboot **innersole**. We recommend choosing the correct size for the biggest foot and **adding 1-1.5cm** when purchasing to allow for socks, growth and comfort.

Our gumboots are in **US sizing** and made from natural rubber with a cotton lining.
