

Shipping Policy

Shipping is generally done via FedEx. If you would like to use your customer account numbers at FedEx, please state so in the order or email us at contact@biofargo.com.

Certain hazardous items may have shipping restrictions and may require additional hazardous charges. UPS or FED EX may not accept these items and alternate shipping methods will be used. We will make every effort to minimize shipping charges.

Most orders are filled and shipped within 2-3 business days from the time they are received. Our standard shipping usually takes 2-5 days.

Shipping regulations are constantly changing but we will try to inform our customers as this occurs.
