

Our colors contain top quality dye stuffs. We use the most modern dyeing procedures. Due to the nature of some high intensity colors we do not guarantee against crocking, color transfer and abnormal cleaning methods, such as dry cleaning, spot washing, chlorine bleach, fabric softners, etc. We can't be responsible for damage that may result. We strongly recommend you test our fabric for your particular requirements. We take every measure to ensure color consistency from dye lot to dye lot. It's impossible to guarantee absolute perfection. Deliveries will be a commercial match to colors shown.
