Newly added platforms/vehicles highlighted in yellow.

Note: Hyundai EDR software is only for vehicles in the **United States of America**.

For more information or to purchase the ACU adapters, please **contact GIT America at 1-888-549-4977**

*Adapter not included in initial kit.

**CFCI Module (G1DDDME001) – Necessary for communication with modules using CAN-FD protocol.

*** The correct adapter, being either of the two, should be determined by visually comparing connectors when extracting data directly from the Airbag Control Unit.

[EDR Disclosure] Tools for downloading the EDRs in Hyundai vehicles have been developed only for vehicles produced after September 1, 2012. Currently, there is no tool for downloading accurate data from the EDRs in Hyundai vehicles produced prior to this date.
