

Thank you for purchasing a Be Bundles Snap Flip Lid™ Our snap-on lid can be attached to a variety of wipes dispensers including non-refillable packages. See our website for details and examples.

Instructions to Attach the Be Bundles Snap Flip Lid™

Remove the back piece of the lid slowly and CAREFULLY, set aside.

Open the lid and place the opened lid over the oval hole opening on the pouch.

Use a pen or marker to mark the locations of the 6 small holes.

Using a clean sharp instrument, puncture the 6 small hole locations through the front of the pouch taking care not to puncture the backside of the pouch. This can be done by holding the pouch open while puncturing the holes. Ensure the hole punctures are no larger than the holes in the lid.

****Due to safety concerns a sharp instrument has not been included, however a variety of standard household items will work (eg. wooden/bamboo food skewer, metal nail).**

Place the back piece of the lid inside the pouch and push the 6 small plastic pegs through the punctured holes so they come through the front of the pouch. Place the pouch on a flat surface and position the front piece of the lid onto the 6 small plastic pegs.

Snap together. All done!
