

Fat Lip Locking Arm Camlocks

Product Information

FAT LIP LOCKING ARM CAMLOCKS are designed for harsh fluid transfer applications. The locking arms reduce the risk of uncoupling during operation. The FAT LIP resists ovalizing during rough treatment. High quality A356 aluminum with T6 heat treatment, make FAT LIP CAMS extremely durable. All cams are leak tested. MIL spec. MIL-A-A-59326. Available in sizes from 3" to 4".

Specification

Body: A356 Aluminum
Arms: Brass

Notes

* Not for use with compressed air

Parts No.	Size Inches	Description
